Notes for Examining Physician

WEIGHT.—Males, without clothing, and also in ordinary clothing without overcoat or hat (weigh twice); females, clothed, but without wrap or hat. If overweight, state whether due to bone and muscle or to fat.

HEIGHT.—Without boots or shoes; observe that no appliances are used to increase.

The examination should include the following observations:

1. **Eyes.**—Ptosis; discharge; corneal scar; pterygium. In recording distant vision consider 20 feet as normal and report all vision as a fraction with 20 feet as numerator and the smallest type read at 20 feet as denominator. If glasses are used, record for each eye the finding with and without glasses. Near vision must be reported. In testing vision without glasses the applicant or appointee should be instructed to remove the glasses at least one-half hour before testing uncorrected vision.

2. **Ears.**—Evidence of middle ear or mastoid disease; condition of drums; discharge. In recording hearing, record 20 feet as normal distance for conversational voice and record deviation from normal as fraction with 20 as denominator and actual distance as numerator.

3. **Nose.**—Ability to blow through each nostril. If free, a speculum examination would not be indicated.

4. **Mouth and throat.**—Missing teeth, pyorrhea; tonsils, hypertrophy or disease.

5. **Gastro-intestinal.**—Ulcers, inflammations, etc.

6. **Thyroid.**—Presence of tumor in neck and tremor, exophthalmos; nervous high-strung disposition, especially in women.

7. **Heart.**—Murmurs. State whether functional or organic. If valvular disease exists, state whether or not it is fully compensated. Arteriosclerosis.

8. **Lungs.**—It is necessary that the auscultatory cough be used. If tuberculosis is present, state whether active or arrested; if arrested, state your opinion as to how long it has been quiescent. Sputum to be examined for tubercle bacilli in all suspected cases.

9. **Hernia.**—Give details as to size, location, etc., and whether well-fitting truss is worn. Inguinal hernia exists when ring is enlarged and on coughing visceral impulse is felt which follows the finger on withdrawal.

10. **Varicocele.**—If varicocele is present, state approximate size—e. g., size of walnut, lemon, etc.

11. **Flat foot** of such a nature as to incapacitate or become aggravated by work or be alleged later to have been caused by accident or occupation. By "flat foot," as used in this form, is meant a weak foot with impaired function; the term being equivalent to "fallen or misplaced arch," an abnormal condition. Impairment of function is the point to be noted. An anatomically flat foot, but strong, is not disqualifying.

12 and 13. **Scars, deformities, atrophies, and paralyses** should be noted, but it is not important that small insignificant scars or blemishes which might be referred to as marks of identification be recorded.

14. This entry should include symptoms and full history of any mental or nervous abnormality.

15. **Urinalysis** to be made in case of persons over 40, and in all cases where arteriosclerosis, nephritis, or diabetes is suspected, and when obesity is found on examination.

Record of urinalysis, if made: Sp. gr. 1016 Albumen None Sugar None Casts None

Blood pressure: Mm. Hg. systolic 125 Mm. Hg. diastolic 80

If tachycardia is present, give pulse rate: Sitting _____ Immediately after exercise _____ Two minutes after exercise _____ Cardiac reserve _____ (Good, fair, or poor)

I have found this applicant abnormal under the following headings: None

In my opinion, applicant is capable of performing duties involving Arduous physical exertion.

REMARKS: Measles, whooping cough, mumps. No operations. (Arduous, moderate, or light)

Kahn negative.

Washington, D. C.

(Place) St. Charles, Mo.
(Date) April 17, 1942.

Dear Sir:

Having filed an application for a position as Special Agent in the Federal Bureau of Investigation, United States Department of Justice, I hereby agree that in the event of an appointment I will be governed by the following conditions:

1. Upon appointment and within ten days after receipt thereof, I shall be required to proceed at my own expense to Washington, D. C., where I will take the oath of office and enter on duty.
2. That said appointment will be on a probationary basis.
3. That my retention in the Bureau shall be dependent upon the performance of satisfactory services, and if my services are deemed unsatisfactory it is understood that my employment may be discontinued at any time and that I will not receive transportation to my home, or to any other point, at Government expense.
4. That if appointed I may be sent to any parts of the continental or territorial United States that the exigencies of the Bureau's work may require; that my headquarters may be fixed in some jurisdiction other than that in which I have heretofore resided; that my headquarters may be changed as the work of the Bureau may require; and that no transfer will be made from one station to another for personal reasons.
5. That the confidential character of the relations of the employees of the Federal Bureau of Investigation with the public is fully understood by me, and that the strictly confidential character of any and all information secured by me, in connection directly or indirectly with my work as a Special Agent, or the work of other employees of which I may become cognizant, is fully understood by me, and that neither during my tenure of service with the Federal Bureau of Investigation nor at any other time will I violate this confidence, and I agree that I will not divulge any information of any kind or character whatsoever that may become known to me, to persons not officially entitled thereto.

I further agree that nothing connected with this certification is to be construed by me as an assurance that an appointment will be tendered me; that I fully understand all of the foregoing and that the conditions specified herein are agreeable to me; that if appointed I will abide by the foregoing conditions, and I am fully cognizant that the provisions mentioned above are to be complied with and they are to be regarded as a part of my appointment if it is subsequently tendered to me and accepted.

Subscribed and sworn to before me this

Dear Sir:

The Saint Louis Office is in receipt of the following letter from FERN C. STUKENBROEKER, 803 North Fifth Street, St. Charles, Missouri:

" Sometime last spring I made application through your office for employment as an agent in the service of the Federal Bureau of Investigation. At that time I completed the various steps you requested, but as yet I have heard no further relative information. Hence, I wonder if my application is still under consideration or whether action has already been completed.

" Since I made application I graduated from Washington University on June 2, 1942 with my Doctor of Philosophy degree and four days later, June 6, 1942, was married to Miss Sara Jefferson of Union City, Tennessee.

" I should be highly appreciative, Mr. Norris, for whatever information relative to my application you might be able to give me. "

Please advise as to the status of his application.

Very truly yours,

G. B. NORRIS

803 North Fifth Street,
St. Charles, Missouri,
September 28, 1942.

Director,
Federal Bureau of Investigation,
United States Department of Justice,
Washington, D.C.

Dear Sirs:

I recently made application through the St. Louis office for a position of special agent in the Federal Bureau of Investigation. I was then given a special written and physical examination and a personal interview with the special agent in charge.

Several weeks ago I inquired by letter as to the status of my application and received a reply from Mr. G.B. Norris to the effect that my name had "been placed on the eligible list" but could not be considered until I had successfully passed a French translation test. Yesterday I called in person at the FBI office in St. Louis to straighten out the matter, but Mr. Norris said that he had submitted his full report on me to Washington and I must write you concerning what additional steps must be taken to complete my eligibility.

Hence I am eager to know just what else I must do in order to be considered for an appointment. Last June I graduated from Washington University (St. Louis) with my Doctor of Philosophy degree in history. For the past two years I have been practically exclusively occupied in investigation and research for the preparation of my doctoral thesis. I previously obtained a Bachelor of Science degree in journalism and a Master of Arts degree in history from the same institution.

I would be highly appreciative if you could inform me relative to completing all the qualifications necessary for appointment. I will gladly supply whatever further information you might desire.

Thanking you in advance for your consideration, I remain

Very truly yours,

Fern C. Stukenbroeker

Notes for Examining Physician

WEIGHT.—Males, without clothing, and also in ordinary clothing without overcoat or hat (weigh twice); females, clothed, but without wrap or hat. If overweight, state whether due to bone and muscle or to fat.

HEIGHT.—Without boots or shoes; observe that no appliances are used to increase.

The examination should include the following observations:

1. **Eyes.**—Ptosis; discharge; corneal scar; pterygium. In recording distant vision consider 20 feet as normal and report all vision as a fraction with 20 feet as numerator and the smallest type read at 20 feet as denominator. If glasses are used, record for each eye the finding with and without glasses. Near vision must be reported. In testing vision without glasses the applicant or appointee should be instructed to remove the glasses at least one-half hour before testing uncorrected vision.

2. **Ears.**—Evidence of middle ear or mastoid disease; condition of drums; discharge. In recording hearing, record 20 feet as normal distance for conversational voice and record deviation from normal as fraction with 20 as denominator and actual distance as numerator.

3. **Nose.**—Ability to blow through each nostril. If free, a speculum examination would not be indicated.

4. **Mouth and throat.**—Missing teeth, pyorrhea; tonsils, hypertrophy or disease.

5. **Gastro-intestinal.**—Ulcers, inflammations, etc.

6. **Thyroid.**—Presence of tumor in neck and tremor, exophthalmos; nervous high-strung disposition, especially in women.

7. **Heart.**—Murmurs. State whether functional or organic. If valvular disease exists, state whether or not it is fully compensated. Arteriosclerosis.

8. **Lungs.**—It is necessary that the auscultatory cough be used. If tuberculosis is present, state whether active or arrested; if arrested, state your opinion as to how long it has been quiescent. Sputum to be examined for tubercle bacilli in all suspected cases.

9. **Hernia.**—Give details as to size, location, etc., and whether well-fitting truss is worn. Inguinal hernia exists when ring is enlarged and on coughing visceral impulse is felt which follows the finger on withdrawal.

10. **Varicocele.**—If varicocele is present, state approximate size—e. g., size of walnut, lemon, etc.

11. **Flat foot** of such a nature as to incapacitate or become aggravated by work or be alleged later to have been caused by accident or occupation. By "flat foot," as used in this form, is meant a weak foot with impaired function, the term being equivalent to "fallen or misplaced arch," an abnormal condition. Impairment of function is the point to be noted. An anatomically flat foot, but strong, is not disqualifying.

12 and 13. **Scars, deformities, atrophies, and paralyses** should be noted, but it is not important that small insignificant scars or blemishes which might be referred to as marks of identification be recorded.

14. This entry should include symptoms and full history of any mental or nervous abnormality.

15. **Urinalysis** to be made in case of persons over 40, and in all cases where arteriosclerosis, nephritis, or diabetes is suspected, and when obesity is found on examination.

Record of urinalysis, if made: Sp. gr. 1005 Albumen None Sugar None Casts None

If tachycardia is present, give pulse rate: Sitting _____ Immediately after exercise _____ Two minutes after exercise _____ Cardiac reserve _____ Blood none. Pus - few.
(Good, fair, or poor) Kahn negative.

I have found this applicant abnormal under the following headings: _____

In my opinion, applicant is capable of performing duties involving Arduous physical exertion.
(Arduous, moderate, or light)

At the moment when some men seized (shock) by the delirium of destruction hurled themselves into battles whose recall shall make future generations shudder, or some races led by the mystics of a mortal fanaticism seemed to wish, in the name of Civilization, to throw us into chaos, the authentic and authorized mandataires of the people of Haiti ~~name me~~ (come to call me) to the first Magistrature of Haiti. If there is a satisfaction (good feeling) which surpasses all others for me, it is that of being (finding myself) among you, in spite of this investiture, participating in this fraternal meeting (which you have given me the honor of offering to me as witness of your satisfaction) which you have honored me by offering it as a token (proof) of your satisfaction. I am deeply touched and I thank you. I do not forget that hardly (only) a few weeks ago, I was still (seated) with you and took part in your work. This participation in the useful work of the Pan-American Union has been for the last four years one of my ~~most~~ ^{most} agreeable and instructive occupations.

Dynamite is rapidly becoming the choice explosive especially for the exploitation of mines and public works, for various (all sorts of) reasons of which the most important is that nitro-glycerine is a perfect explosive, that is to say a molecule which contains enough oxygen in order to oxidize completely the other chemical elements, carbon, hydrogen, ~~X~~ from a quickness of detonation comprising between 7,500 to 8,000 ——. Dynamite is of great power and can be handled conveniently. Nobel made other discoveries in the field of explosives, in particular the dynamite gum, composition whose (in which the) inert base of lump or of flour of wood is replaced by an active base, the cotton powder (itself) which has the property of dissolving by heat in nitro-glycerine and in producing, upon cooling a plastic colloidal mass which is employed more advantageously. Let's remark that dynamites are not the true explosives of war, serving only to the charging of some land bombs, since there are others of still greater importance.

In a Paris shop, a few mobilized intellectuals were commenting upon a very beautiful article of M. Etienne Gilson, which was going to appear in "The Literary News". They said that for the Germans (philosophers), it was to obtain some "mains of the world", to add some metaphysical syntheses, to possess an imaginary world, while the French first searched for some solid truth from which he was able progressively to conquer all the other truths. They also said that, with us, one is not able either to pass by intelligence or to content himself by it. And they saw an illustration of this tendency in the thought of Mr. Bergson, who has been so much reproached, especially, of having desired to dethrone reason and chase (put) intelligence under the dust of a vague mysticism.

No matter (in) what (regardless of the) federal system, it is always difficult to divide the respective jurisdictions of local and central government; the fathers of the Confederation made some praiseworthy efforts to define the limits of the attributions of each of these governments. Unfortunately, one must state that since then the judicial interpretation of the terms of the constitution has tended to accentuate the character of the Dominion. The judgments rendered by the private Council for the last thirty years upon the subject of the delimitation of the powers ^{conferred} to the federal government in virtue of article 91 and to the provinces in virtue of article 92 almost always have favored the provinces.

Local Board Number 1
Selective Service System
St. Charles, Missouri

Gentlemen:

Reference is made to the Selective Service case of Mr. Fern G. Stukenbroeker, who is duly registered at your Board as Order Number 2757. Mr. Stukenbroeker accepted an appointment as a Special Agent of this Bureau on November 16, 1942.

In connection with this matter, I am transmitting herewith, D.S.S. Form 42-A (Revised) executed by me under date of December 2, 1942, requesting that occupational deferment in Class II-B be granted to him. It will be noted that Mr. Stukenbroeker is presently performing duties in a position which has been listed as critical to the effective functioning of this Bureau by General Hershey of the National Selective Service Headquarters in Local Board Release Number 75, which was issued under date of December 29, 1941.

Mr. Stukenbroeker possesses the qualifications which make him adaptable to the necessary specialized training and highly technical knowledge so essential to the performance of his duties in connection with the successful war effort that it is not possible to replace him at this time.

I want you to know that it is my desire to cooperate with your Board in every possible way and, of course, I shall keep you promptly advised should there be any change whatsoever in the occupational status of this registrant with this Bureau.

Sincerely yours,

John Edgar Hoover

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. This Bureau has also been designated by Congress as the agency officially responsible for the tabulation and dissemination of police statistics for the entire country. Under an act of Congress these statistics are gathered and are distributed to thousands of interested police and affiliated agencies every six months so that trends in crime, crime records, and crime control can be known to those to whom it is of most interest. Further than this, the Federal Bureau of Investigation has been designated as the agency having jurisdiction over the classification and maintenance of fingerprint records not only on a national basis but on an international basis. The greatest depository of fingerprint records in the world is maintained by the Federal Bureau of Investigation in Washington, D. C. We have over fifty-three million sets of fingerprints on hand today and are receiving fingerprint records at a rate of approximately 105,000 each day. The military and naval authorities have issued orders that all employees of manufacturing plants operating under contracts with the War Department or Navy Department must be fingerprinted and their fingerprints sent to the Federal Bureau of Investigation for search against our existing files. Obviously the purpose of such an order is to ascertain the criminal background, if any, of persons who are occupying positions where they have access to confidential information and to eliminate from such positions those persons whose records indicate that their interests are not those of our government.

We are also receiving fingerprint records of all persons enlisting or being inducted into the army and other military and naval services. All employees of the Federal government are fingerprinted and their fingerprints searched through our files for prior criminal records, again for the purpose of guarding against the employment of persons in the Federal government whose backgrounds indicate that they might not function to the best interests of our government. We are receiving thousands of criminal fingerprints from all police agencies throughout the country and it is essential that these fingerprints be handled promptly and the contributing agency advised of any prior record so that justice may be intelligently administered. By means of this procedure the Federal Bureau of Investigation is able to identify thousands of fugitives from justice each year who otherwise might not be identified by local police agencies who do not have the benefit of prior criminal records as reflected on fingerprint cards which were made at the time of some previous arrest. Many such persons are wanted for a previous criminal act by some other law enforcement agency and are presently attempting to disguise their true identity through assuming a fictitious name. This ruse on their part is penetrated through the science of fingerprinting and the Federal Bureau of Investigation is enabled to advise the interested local law enforcement agency of the true identity of the individual and he can be held for appropriate prosecutive action, whereas if not identified, he quite possibly would have been released to continue his depredations against society.

Our criminological laboratory handles the scientific examination of evidence in cases investigated by the Federal and local law enforcement agencies. A very high percentage of the work presently being performed by the Technical Laboratory is in connection with the national war effort. Evidence collected in suspected sabotage cases is examined by the scientists in our laboratory who are qualified to handle examinations of almost any technical nature. The personnel in the Technical

Laboratory have been trained through education and experience to handle such subjects as analytical chemistry, qualitative and quantitative analysis, ballistics tests, microanalysis examinations, spectrographic examinations, cryptograph and cryptanalysis work, and many other highly technical examinations.

The Files Section of the Federal Bureau of Investigation contains files on hundreds of thousands of individuals whose activities are of the greatest importance to the country today. It is highly important that we maintain in the Files Section a nucleus of experienced personnel so that the information contained therein can be made readily available to the supervisory personnel of this Bureau and also be made available to other governmental agencies such as the State Department, Military Intelligence Division, Office of Naval Intelligence, and the Immigration and Naturalization service. It is most essential that only the most trusted employees be assigned to this work because of the highly confidential material that is contained in our files.

All of the functions of the Federal Bureau of Investigation are so closely inter-related that it is essential that qualified and experienced personnel be available not only to perform their own work but to train new employees. The Congress of the United States has passed several bills within the past year approving an increase in the personnel. When it is considered that the work of this Bureau is highly confidential it can be appreciated that the selection of personnel must be made with great care. It has been our experience that only one employee is obtained from every one hundred persons who have applied. It is necessary that each employee be investigated thoroughly so that there will be no possibility of having a person in our service who is not loyal to the United States. We have found that it is extremely difficult to secure qualified persons for almost any of the positions that are available. At the present time we have approximately 1,500 employees less than the number that has been authorized by Congress. Every effort is being made to obtain these additional employees as they are badly needed in order for us to properly carry on the work that has been assigned to us. We are endeavoring to obtain these additional persons without interfering in any way with the administration of the Selective Training and Service Act. In all positions where possible we are utilizing the services of female employees. With the exception of Special Agents' and Laboratory Scientists' positions, no appointment of male employees who may be eligible for military service are being made. It is absolutely necessary, however, that our experienced personnel be maintained so that the new personnel can be adequately supervised and trained.

All employees of the Federal Bureau of Investigation have been working at top speed to keep abreast of our duties. The regular work week has been extended to 44 hours, and in addition to that, employees are performing a tremendous amount of overtime and no compensation whatever is paid for the overtime service performed. Our Special Agent investigators are performing no less than four hours a day overtime service and the clerical personnel is performing between one and two hours a day overtime service. Obviously very little consideration can be given to replacing an experienced employee until such time as we are able to build up our present staff to the number authorized and needed.

Special Agents of the Federal Bureau of Investigation are given twelve weeks of training which embraces 535 hours of study. During that period of time they are trained not only in investigative techniques and procedures, but are qualified in the handling of firearms, mechanical devices, and technical devices in use by the Bureau. After entering the Field service which follows their training period, their skill of course increases with their length of service in the Field. It would

obviously, therefore, be impossible to adequately replace an experienced Special Agent until the replacement had been in the service an equal length of time.

The science of the classification of fingerprints is one of the most exacting in the world today. Employees in law enforcement organizations handling fingerprint activities are of a profession which demands the utmost skill and honesty in the practice of that profession. In the Federal Bureau of Investigation we train Fingerprint Technicians through classroom and practical study for a period of approximately six months. At the end of that time those employees are qualified to examine sets of fingerprints and to identify like sets. This science cannot be taught overnight and the loss of a fingerprint man at any stage of his training or employment is a severe blow to the Federal Bureau of Investigation at this time when we are receiving thousands of sets of prints from all of the coordinated activities of the Government and from local law enforcement agencies.

The Laboratory Scientists of the Federal Bureau of Investigation, all graduate scientists, are thoroughly schooled in the science of criminology and today are performing duties pertaining to the successful war effort one hundred percent of their time. Their training in this field, embracing all sciences of laboratory examination which includes cryptography, chemistry, ballistics, geology, serology, and many others, has been invaluable in the solving of espionage, sabotage, and other subversive activities. It is essential that these scientists many times perform their scientific work in the field under such conditions that they could not be replaced with employees not possessing their physical attributes.

Bureau employees in positions aforementioned and for whom deferments are requested possess technical and scientific skills which renders them irreplaceable to the Federal Bureau of Investigation at this time.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Dear Mr. Stukenbroeker:

The Bureau is in receipt of the report of the physical examination afforded you at the United States Marine Hospital, Quantico, Virginia, on November 22, 1942.

This report reflects the following physical defects:

None

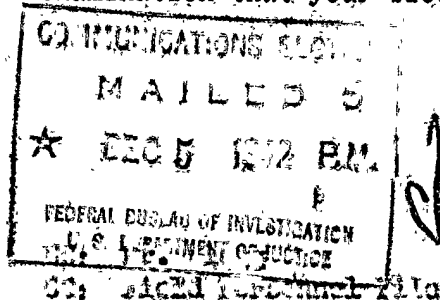

The Board of Examining Physicians makes the following recommendations:

Vaccination for smallpox.
Inoculation for typhoid.
Inoculation for tetanus.

It reports that you are capable of performing strenuous physical exertion, and have no physical defects that would interfere with your participation in raids or other work involving the practical use of firearms.

For your information, it was determined during this examination that your blood is International Type "A".

Justice (Department or agency) F. B. I. (Bureau or division) Washington, D. C. (Place of employment)
Name FERN C. STUCKENBROECKER
(Given name, initial or initials, if any, and last name. Print or type)

Section 9A of Public 252—76th Congress, approved August 2, 1939; otherwise known as the "Hatch Act," provides:

"(1) It shall be unlawful for any person employed in any capacity by any agency of the Federal Government, whose compensation, or any part thereof, is paid from funds authorized or appropriated by any Act of Congress, to have membership in any political party or organization which advocates the overthrow of our constitutional form of government in the United States.

"(2) Any person violating the provisions of this section shall be immediately removed from the position or office held by him, and thereafter no part of the funds appropriated by any Act of Congress for such position or office shall be used to pay the compensation of such person;"

It is provided in various appropriation acts that no part of the funds so appropriated shall be used to pay the salary or wages of any person who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence, and that an affidavit shall be considered *prima facie* evidence that the person making the affidavit does not advocate, and is not a member of an organization that advocates, the overthrow of the Government of the United States by force or violence. Such acts provide further that any person who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence and accepts employment, the salary or wages for which are paid from any such appropriation, shall be guilty of a felony and, upon conviction, shall be fined not more than \$1,000 or imprisoned for not more than 1 year, or both, and that the above penalty shall be in addition to, and not in substitution for, any other provisions of existing law.

I, Fern C. Stuckenbroecker, do solemnly swear (or affirm) that I have read and understand the foregoing; that I do not advocate the overthrow of the Government of the United States by force or violence; that I am not a member of any political party or organization that advocates the overthrow of the Government of the United States by force or violence; and that during such time as I am an employee of the Federal Government, I will not advocate nor become a member of any political party or organization that advocates the overthrow of the Government of the United States by force or violence.

NAME - FERN C. STUKENBROEKER

AGE - 24

MARITAL STATUS - Married

LEGAL RESIDENCE - St. Charles, Missouri

TITLE - Special Agent

EDUCATION - B.S., 1938, M.A., 1939, Ph.D., 1942, Washington University

PREVIOUS EXPERIENCE - Clerk; Publicity Work.

OFFICE OF PREFERENCE - None

Stukenbroeker was born at Nevada, Missouri, and has spent most of his life in that state. Most of his time, since reaching his seniority, has been spent in college. However, he has been employed as a clerk in a grocery store and has done some publicity work for his local Kiwanis Club. He was also employed at one time in the Metallurgical Department of McQuay-Norris Company in the manufacture of machine gun cores. For the past year he has worked on his thesis the subject of same being "British Public Opinion Towards Austria-Hungary 1900-1914". This Agent has a reading knowledge of French. His hobbies are sports, particularly baseball and tennis, and doing general research work in connection with a thesis.

STUKENBROEKER is above average in his class. He is certainly well equipped mentally and participates frequently in classroom discussions and seems to be alert at all times. He is confident in his own ability and appears intelligent and friendly. He absorbed the course material in an above average fashion, his grades being in the high upper bracket of his class. He makes an average personal appearance. However, it is noted that he has stained teeth. This Agent is small of stature and investigative work will be entirely foreign to him. It is believed that he will best develop in a small office under a watchful Special Agent in Charge.

A small office in a New England State is recommended.

Dear Sir:

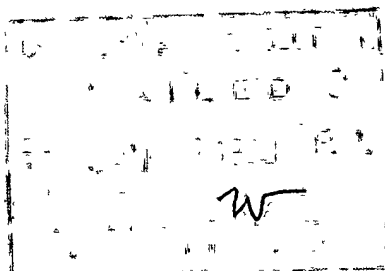

This is to advise you that Special Agent F. O. Stukenbroeker, who entered on duty November 16, 1942, in Grade Caf-9, at a salary of \$3,200 per annum, has been directed to report to you for assignment. The training school terminates on February 5, 1943, on which date he will proceed to your division. You should advise the date of his arrival.

You are instructed to continue the training of the Agent so that he may receive experience in all branches of the work of the Bureau. In submitting special efficiency reports, in accordance with the provisions of the Manual of Rules and Regulations, you should include statements as to the kinds of cases on which the employee has been engaged, his ability or lack thereof in any certain phase of the work, and particularly his ability to perform more involved investigations, such as bankruptcy. It is further desired that you give your personal attention to the development of this employee along administrative and executive lines and that any pertinent information indicating possibilities for assignment to such work be reported to the Washington headquarters of the Bureau from time to time.

Very truly yours,

John Edgar Hoover

~~CONFIDENTIAL~~

Gentlemen:

Reference is made to the Selective Service case of Mr. Fern C. Stukenbroeker, who is registered at your Board as Order Number 2757. You will recall that as a result of my previous request for occupational deferment he has been placed in Class II-B. Mr. Stukenbroeker, who is 24 years of age, entered this Bureau on November 16, 1942, and holds the position of Special Agent, receiving \$3200 per annum.

Under the provisions of Executive Order 9309, Section II, Paragraphs 2 and 3, the Chairman of the War Manpower Commission has approved a Regional Committee for the Federal Bureau of Investigation. All requests for occupational deferment made by this Bureau are reviewed and approved by the Agency Committee in question.

Under Section III, Paragraph 1, of Executive Order 9309, the key positions of the Federal Bureau of Investigation are to be passed upon by the Review Committee of the War Manpower Commission. Data covering such key positions have been furnished to that Review Committee and, functioning under the aforementioned Section, the Agency Committee of this Bureau, having determined that the aforementioned position is a key position, requests occupational deferment for Mr. Stukenbroeker.

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who has contributed to this fund subsequent to January 15, 1943, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of five dollars (\$5), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe-keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$5,000.

The following person is hereby designated as my beneficiary:

This Agent makes an average personal appearance. He is slightly youthful in appearance, but makes up for this with self-assurance and aggressiveness. His personality is good, and he appears above average in intelligence.

Stukenbroeker at first in training school had too much of the pedagogical approach and mannerisms about him. He showed definite improvement in overcoming these and generally improving his personality.

Although this agent is qualified in the use of all Bureau firearms, it is suggested that during firearms training in the field that he be given special attention with the .30 Rifle, as he experienced some difficulty with this weapon during initial firearms training.

8 Appeal Procedure 0

Any person entitled to do so may take an appeal to the board of appeal within 10 days after the above date of mailing of Notice of Classification to registrant in either of the following ways:

- (1) By filing with the local board a written notice of appeal. Such notice need not be in any particular form but must state the name of the registrant and the name and identity of the person appealing so as to show the right of appeal.
- (2) By signing the "Appeal to Board of Appeal" on the Selective Service Questionnaire (Form 40).

When an appeal is taken from the classification or reclassification of a registrant and when such appeal is upon the ground that the registrant should have been deferred by reason of his occupation, the appeal shall be transferred to the board of appeal having jurisdiction over the area in which the registrant is employed, provided all of the following conditions are met (but not otherwise):

- (1) The first person to appeal from such classification or reclassification files with his appeal a written request for such transfer;
- (2) The written request states in what respect an occupational question is involved; and
- (3) The written request states the name of the registrant's employer and the street address, county, and State where the registrant is employed.

The person appealing may attach to his notice of appeal or to the Selective Service Questionnaire (Form 40) a statement specifying the respects in which he believes the local board erred, may direct attention to any information in the registrant's file which he believes the local board has failed to consider or give sufficient weight, and may set out in full any information which was offered to the local board and which the local board failed or refused to include in the registrant's file.

Appeal to the President from classification by the board of appeal may be taken at any time within 10 days after the date of mailing of notice to registrant, provided the registrant was classified by the board of appeal in either Class I-A, Class I-A-O, or Class IV-E and one or more members of the board of appeal dissented from such classification. Otherwise, the decision of the board of appeal shall be final except when an appeal is taken to the President either by the State Director of Selective Service or the District Director of Selective Service on the ground that he deems it to be in the national interest or necessary to avoid an injustice.

ANNUAL EFFICIENCY REPORT

- A. This Agent presents an average personal appearance, although somewhat youthful. He has a very pleasant personality and a most friendly and cooperative manner. He has sufficient initiative and resourcefulness to handle his work in a satisfactory manner. He is very enthusiastic about the work of the Bureau and responds amiably to criticism and correction.
- B. He dictates at an average rate of speed and is a satisfactory automobile driver. He has testified satisfactorily before the United States Commissioner in this District. He could show improvement in the use of firearms and until he has improved in this phase of the Bureau's work I would hesitate to use him on the more dangerous type of assignment. There has been no occasion to use him on a physical surveillance. He can type well enough to prepare rough drafts but is ^{not} qualified to take shorthand. He has the ability to organize his reports, ^{and they require} ^{less than} average supervision. This Agent has a pleasant personality and is able to impress both law enforcement officials and business contacts favorably. He has demonstrated the ability to organize and initiate investigations in a creditable manner.
- C. Since being assigned to this office he has handled routine criminal investigations exclusively.
- D. To date he has revealed no executive, administrative, or supervisory ability.
- E. He has not been assigned exclusively to a technical surveillance.
- F. He performs an average amount of overtime and handles a slightly above average volume of work.
- G. It is not felt that this Agent has the necessary qualifications for consideration for an SIS assignment.

I consider his development ^{yes.} ~~slightly~~ better than average.

Re: Fern C. Stukenbroeker
Special Agent

Dear Sir:

This is to advise that Special Agent Fern C. Stukenbroeker, who is presently assigned to this Office, has reported to me that local Board #1, St. Charles County, St. Charles, Missouri, under date of June 10, 1943, granted him a continuation of his class 2-B deferment for an additional six months.

This classification is effective until December 10, 1943.

Re: C. A. REILLY;
F. C. STUKEMBROEKER;
SPECIAL AGENTS

Dear Sir:

Reference is made to Bureau teletype dated July 26, 1943, requesting that transfer efficiency reports be submitted immediately on the above named agents.

The personnel file of Agent REILLY has already been transmitted to the New York Office, and apparently the copy of the letter of transmittal was inadvertently forwarded to the New York Office, as there is no copy in this file. The administrative file of this agent reflects that he departed from this office on May 22, 1943, and it would appear that possibly no transfer efficiency report was written concerning him in view of the short period of time which had elapsed after the submission of his annual efficiency report. Without his personnel file it is impossible to determine any more about this matter as his supervisors here do not have an independent recollection of it. If the Bureau still desires a report concerning him, please advise this office, and an effort will be made to collect that information which the supervisors can recall concerning this agent.

The same situation pertains to Special Agent F. C. STUKEMBROEKER, with the exception that he departed from this office on June 20, 1943, enroute to the Washington Field Office. It is not known whether another report was prepared concerning him after the regular annual efficiency report.

INTERIM EFFICIENCY REPORT

Agent Stukenbroeker presents a good physical appearance and possesses a friendly personality. He is cooperative at all times and is amenable to suggestions.

This Agent was afforded an opportunity to testify at a Moot Court, and his voice was good, carried well, and his answers were responsive to questions propounded.

Since reporting for duty in this Division, Agent Stukenbroeker has been assigned almost exclusively to a highly-confidential technical surveillance, and his services in this connection have been most satisfactory.

Agent Stukenbroeker is about average in the use of firearms, and it is my opinion he could be utilized on a dangerous assignment.

At this time, he is entitled to the rating of GOOD.

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who has contributed to this fund subsequent to August 31, 1943, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000.

Mr. Stukenbroeker is a Special Agent and as such holds a key position as designated by the Review Committee of the War Manpower Commission within the meaning of Executive Order 9309. The performance of his duties is essential and critical to the execution of the work assigned by law and Executive Directive to the Federal Bureau of Investigation.

To the Federal Bureau of Investigation is assigned the responsibility of investigating all acts of espionage, sabotage and all actions tending to undermine the internal security of the nation. We must also investigate and enforce all those federal statutes assigned to the investigative jurisdiction of this Bureau such as: bank robbery, kidnaping, interference with the interstate transportation of goods, National Stolen Property Act, White Slave Traffic Act, etc., the enforcement of which are necessary to the preservation of the national health, safety and interest.

To carry on this work it is necessary to maintain a corps of trained investigators. Mr. Stukenbroeker is such a trained Special Agent. In the attached Form 42 S further information relative to Mr. Stukenbroeker is set forth.

SPECIAL AGENTS

This position has been designated as a key position by the Review Committee of the War Manpower Commission.

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. The investigative work in connection with the above violations is performed by the Special Agent personnel of this Bureau, who are recruited from applicants between the ages of twenty-three and forty. They must be graduates of a law school or an accounting school with the necessary accounting experience, or graduates of a university with extensive investigative experience, or with linguistic qualifications, or have basic educational training and possess satisfactory prior law enforcement experience which will enable them to satisfactorily perform the duties imposed upon them. For certain of the scientific investigative work, Special Agents are secured who primarily are qualified in the sciences, such as ballistics, chemical analysis, spectography, cryptography, mineralogy, metallography, toxicology, and other like sciences. Applicants for appointment to the position of Special Agent must meet the physical standards and requirements for this position, which are exceedingly high. They must have vision of no less than 20/40 in one eye, 20/50 uncorrected, both eyes to be corrected to 20/20. They must have no color deficiency whatever.

Special Agents of the Federal Bureau of Investigation undergo a rigorous training program. All newly appointed Special Agents in the Federal Bureau of Investigation attend training classes for a period of sixteen weeks; the hours of training are from 9:00 a.m. to 9:00 p.m. daily, which course of study is equivalent to two full years of college study. During this period of training, they are thoroughly instructed in the basic rules and regulations and jurisdictions of the Federal Bureau of Investigation. They must satisfactorily pass numerous written examinations during their period of training. If a trainee fails to pass any of these examinations, he is dropped from the school.

The duties of a Special Agent of the Federal Bureau of Investigation are most arduous. They must be available at a moment's notice to go to any part of the United States or to any assignment outside the United States. The hours of duty for these employees are such that they must be in excellent physical health. The average work week for a Special Agent of the Federal Bureau of Investigation is no less than seventy hours. The work of a Special Agent, regardless of his particular qualification, is such that he cannot lead a sedentary or well regulated life. Due to the small number of Special Agents of the Federal Bureau of Investigation presently handling the work under the jurisdiction of the Federal Bureau of Investigation within and without the continental United States, it is necessary that the entire staff be highly mobile.

Special Agents are required to be able to conduct investigations in more than 100 types of cases, including espionage, sabotage, subversive activities, frauds against the government, kidnaping, extortion, bank robbery, White Slave

Traffic Act, etc. They are trained in and required to maintain constant skill in the use of highly technical equipment, technical processes, such as those necessary for the development of latent fingerprints, concealed or obliterated numbers upon firearms, to understand the use of code messages, to conduct physical surveillances of subjects of espionage and similar cases, sometimes for periods of many months, and when necessary, to assume a necessary character to enable them to fit in an undercover capacity into the activities and operations of groups such as foreign agents, who are engaged in thwarting the war effort.

The arduousness and importance of the work of Special Agents of the Federal Bureau of Investigation was readily recognized by the military and naval leaders. The Chief of the Bureau of Navigation, for the Secretary of the Navy, requested Special Agent employees of the Federal Bureau of Investigation to submit their resignations from reserve commissions held by them in the naval services because it had been determined that those Special Agents could better serve their country in their present assignments than if they were to be called into active naval service. The Secretary of War, in 1942, addressed personal communications to 168 Special Agents of the Federal Bureau of Investigation who at that time held reserve commissions in the Army. The Secretary of War at that time advised the Special Agents that their employment in the FBI is of such vital importance to the national defense as to necessitate their remaining at their posts of duty despite the fact that they held reserve commissions in the United States Army, and the request was made that these Agents, through the proper channels, submit their resignations from their commissions.

General Lewis B. Hershey of the Selective Service System pointed out in his Directive to all Local Boards of December 29, 1941, that Special Agent positions of the FBI were most important and essential to the national health, safety, and interests, and that the national defense functions of the FBI should not be impaired by the removal of trained personnel from critical positions in the Bureau.

The position of Special Agent has always been considered the most critical of all positions in the FBI, since, with the tremendous bulk of work placed upon us due to the war emergency, it is essential that a trained qualified staff be available for the handling of this work. If the Federal Bureau of Investigation cannot continue to retain its personnel in this critical position, aid and comfort would most certainly be given to the enemy and others whose interests are inimical to the best interests of the country today. Up to the present time the full complement of Special Agent personnel has not been secured and every effort is being made to secure the necessary additional Special Agent personnel.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Subscribed and sworn to before me this 27th day of November 19 43

The above-named Agent presents a neat personal appearance at all times and is possessed of a friendly personality.

He has been assigned exclusively to a highly confidential technical surveillance and appears to be somewhat interested in this type of work. He has performed his duties in a very efficient manner.

The firearms record of this Agent reflects better-than-average scores, and for this reason it is believed he can be used on dangerous assignments. He is a qualified automobile driver.

I believe he is entitled to a rating of good.

Appeal Procedure

Any person entitled to do so may take an appeal to the board of appeal within 10 days after the above date of mailing of Notice of Classification to registrant in either of the following ways:

- (1) By filing with the local board a written notice of appeal. Such notice need not be in any particular form but must state the name of the registrant and the name and identity of the person appealing so as to show the right of appeal.
- (2) By signing the "Appeal to Board of Appeal" on the Selective Service Questionnaire (Form 40).

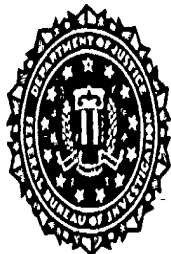

When an appeal is taken from the classification or reclassification of a registrant and when such appeal is upon the ground that the registrant should have been deferred by reason of his occupation, the appeal shall be transferred to the board of appeal having jurisdiction over the area in which the registrant is employed, provided all of the following conditions are met (but not otherwise):

- (1) The first person to appeal from such classification or reclassification files with his appeal a written request for such transfer;
- (2) The written request states in what respect an occupational question is involved; and
- (3) The written request states the name of the registrant's employer and the street address, county, and State where the registrant is employed.

The person appealing may attach to his notice of appeal or to the Selective Service Questionnaire (Form 40) a statement specifying the respects in which he believes the local board erred, may direct attention to any information in the registrant's file which he believes the local board has failed to consider or give sufficient weight, and may set out in full any information which was offered to the local board and which the local board failed or refused to include in the registrant's file.

Appeal to the President from classification by the board of appeal may be taken at any time within 10 days after the date of mailing of notice to registrant, provided the registrant was classified by the board of appeal in either Class I-A, Class I-A-O, or Class IV-E and one or more members of the board of appeal dissented from such classification. Otherwise, the decision of the board of appeal is final except when an appeal is taken to the President either by the State Director of Selective Service or the Director of Selective Service on the ground that he deems it to be in the national interest or necessary to avoid an injustice.

Appeal Procedure

Any person entitled to do so may take an appeal to the board of appeal within 10 days after the above date of mailing of Notice of Classification to registrant in either of the following ways:

- (1) By filing with the local board a written notice of appeal. Such notice need not be in any particular form but must state the name of the registrant and the name and identity of the person appealing so as to show the right of appeal.
- (2) By signing the "Appeal to Board of Appeal" on the Selective Service Questionnaire (Form 40).

When an appeal is taken from the classification or reclassification of a registrant and when such appeal is upon the ground that the registrant should have been deferred by reason of his occupation, the appeal shall be transferred to the board of appeal having jurisdiction over the area in which the registrant is employed, provided all of the following conditions are met (but not otherwise):

- (1) The first person to appeal from such classification or reclassification files with his appeal a written request for such transfer;
- (2) The written request states in what respect an occupational question is involved; and
- (3) The written request states the name of the registrant's employer and the street address, county, and State where the registrant is employed.

The person appealing may attach to his notice of appeal or to the Selective Service Questionnaire (Form 40) a statement specifying the respects in which he believes the local board erred, may direct attention to any information in the registrant's file which he believes the local board has failed to consider or give sufficient weight, and may set out in full any information which was offered to the local board and which the local board failed or refused to include in the registrant's file.

Appeal to the President from classification by the board of appeal may be taken at any time within 10 days after the date of mailing of notice to registrant, provided the registrant was classified by the board of appeal in either Class I-A, Class I-A-O, or Class IV-E and one or more members of the board of appeal dissented from such classification. Otherwise, the decision of the board of appeal is final except when an appeal is taken to the President either by the State Director of Selective Service or the Director of Selective Service on the ground that he deems it to be in the national interest or necessary to avoid an injustice.

SPECIAL AGENTS

DUTIES ACTUALLY PERFORMED: This employee is a Special Agent of the Federal Bureau of Investigation and in such capacity performs criminal and civil investigative work in connection with the many matters under the primary jurisdiction of the Federal Bureau of Investigation. At the present time and since the declaration of the first limited emergency in 1939, Special Agents of the Federal Bureau of Investigation have been utilized a great majority of the time in investigating matters pertaining to espionage, sabotage, counter-espionage, and like matters under the primary jurisdiction of the Federal Bureau of Investigation. This Agent, in his present capacity, is charged with the responsibility of conducting such investigations so that the internal security of the country may be safeguarded. In addition to the many matters of internal security which must be investigated by Special Agents of the Federal Bureau of Investigation, there is also under the jurisdiction of the Federal Bureau of Investigation the enforcement of the kidnapping, extortion, bank robbery, white slavery, motor vehicle theft and numerous other statutes. In performing the duties of a Special Agent in the Federal Bureau of Investigation, every Special Agent must be thoroughly qualified to handle all types of our work. It is not possible to have specialists in one line of endeavor and the work, due to its arduousness, makes it necessary that every Agent be capable of performing arduous physical exertion, that every Agent be fully qualified in the use of all types of firearms utilized by the Federal Bureau of Investigation and that every Agent be appropriately trained in self-defense tactics so that he may take into custody any individual who has been charged with a violation of a Federal statute, regardless of whether it may be necessary to have physical encounter with such an individual in order to effect his apprehension.

It has been necessary for the Federal Bureau of Investigation, since the declaration of the first emergency in 1939 to greatly expand its force. All applicants who possessed the basic qualifications and were appointed to Special Agent positions were given a rigid and extensive course of training covering a period of approximately three months before they were sent to the field to perform actual investigative work.

AVERAGE HOURS WORKED PER WEEK: The regular working hours per week for Special Agents of the Federal Bureau of Investigation are 48 hours; however, for the past 10 years, Special Agents of the Federal Bureau of Investigation have continuously averaged from 70 to 80 working hours per week. The condition of the work of the Federal Bureau of Investigation at this time makes it necessary that the Agents necessarily continue to perform such hours of work. They are not compensated for any work over 48 hours a week, the remaining hours being voluntarily worked by them. In addition thereto, every Special Agent of the Federal Bureau of Investigation must be in continuous contact with his headquarters and is subject to 24-hour duty, many times it being necessary for him to work for extended periods of time without proper food and rest.

HOW LONG WILL IT TAKE TO REPLACE THIS EMPLOYEE: The Federal Bureau of Investigation, under its existing appropriations, is authorized to have 4,853 Special Agents. We have not been able to fully recruit this staff of Special Agents and it cannot at this time be said that this Special Agent can be replaced in the future. The pending work of the Federal Bureau of Investigation, which consists mainly of matters pertaining to the internal security of the country, is in a delinquent condition. At the present time more than 50,000 cases of violations of Federal statutes under the primary jurisdiction of the Federal Bureau of Investigation such as espionage, kidnapping, subversive activities, bank robbery, white slavery, etc., are in a delinquent status. It is essential that our experienced personnel be continued if we are to properly perform the duties imposed upon us due to the present war condition.

The Federal Bureau of Investigation, since the passage of the Selective Service Act, has been circumspect in the appointment of applicants to positions in this Bureau and when an applicant who may have possessed all of the qualifications for appointment to the position of Special Agent was subject to induction into the military service within any reasonable period of time, he was not given consideration for appointment to the position of Special Agent under any circumstances. In the event an applicant may have been subject to induction in the distant future due to dependency or other classification, favorable consideration was not given his application unless concurrence was given by his Local Draft Board.

Under present conditions, with the manpower problem so acute, the Federal Bureau of Investigation finds it is impossible to recruit draft-free applicants for appointment to Special Agent positions. It is not possible to appoint those physically disqualified or those in advanced years because of the hours which must be worked, and the hardships which must be endured. The physical activity which is necessary makes it essential that only those who can withstand the most arduous physical exertion be considered for Special Agent appointments.

DESCRIPTION OF THE ACTIVITIES OF THIS COMPANY: The Federal Bureau of Investigation has been charged by Congress and by the President with the enforcement of certain Federal statutes and the internal security measures promulgated by the Congress and the President. The Federal Bureau of Investigation has sole jurisdiction of the civilian internal security of our country and under such jurisdiction investigates matters pertaining to espionage, sabotage, counter-espionage, activities of foreign Agents, activities of subversive groups and many other matters which pertain to the internal security of the nation. We also have jurisdiction over the investigation of crimes such as kidnaping, bank robbery, extortion, white slavery, automobile theft, impersonation, illegal wearing of uniforms, war frauds and many other crimes against the safety and security of the people of our nation.

In addition to the investigative activities of the Federal Bureau of Investigation, its Identification Division is the largest repository in the world for fingerprint records. Under Congressional Act, appropriating funds for the operation of the Federal Bureau of Investigation, this Bureau is charged with the responsibility of gathering identification data and disseminating it to various law enforcement agencies, government agencies and others who, by law, are entitled to have such information.

The majority of the work of the Identification Division of the Federal Bureau of Investigation at the present time pertains to national defense. During the past year approximately 70,000 sets of fingerprint records were received daily and our total collection of fingerprint records is over 80,000,000 sets. Large numbers of fingerprint records are received daily from the Army, Navy, Coast Guard and affiliated military and naval organizations, from the Civil Service Commission of the United States Government, from law enforcement officials and many prints are being received through law enforcement agencies of persons who are endeavoring to secure employment in national defense industry. It is absolutely essential that these prints be handled promptly, that they be searched through our files and if any of these individuals have previous criminal or police records, that the official Government or law enforcement agency be so advised.

It has been noted by the Federal Bureau of Investigation from a review of fingerprint records received that on a number of occasions those having subversive or other inclinations inimical to the best interests of our country have endeavored to infiltrate, not only into our national defense industries, but into our armed forces so that through devious efforts they might slow down the successful war effort.

In addition to the aforementioned activities, the Technical Laboratory of the Federal Bureau of Investigation, staffed with specialists of proven experience and ability, are performing duties approximately 100% of the time pertaining to sabotage and espionage activities carried on within the borders of our country by those having the Axis interests at heart. Hundreds of cases are received daily in the Technical Laboratory having to do with secret codes, cryptographs, hidden messages, the sabotaging of national defense industry, airplanes, trains and component parts thereof, which evidence must be immediately handled so that the successful war effort of this country can be continued. This work, of course, cannot be continued if qualified technical personnel is not available to handle it.

The Federal Bureau of Investigation at the present time has an authorized ceiling of employees of 13,700. We are approximately 1,200 people short at this time and every effort is being put forth to secure the necessary personnel to fill the positions authorized. This personnel is not being recruited for the mere purpose of filling an authorized quota. It is being recruited because it is absolutely essential, if we are to continue to remain in a current status in so far as our work is concerned, that sufficient personnel be employed to handle the most important tasks being referred to the Bureau for attention today. The investigative work of the Federal Bureau of Investigation is in a delinquent status. The investigative staff, during the last fiscal year, performed uncompensated overtime totalling 3,814,380 hours, and, considering an average staff of approximately 4,500 people performing this overtime over and above the 48 hour week, it can be seen that every effort is being expended by the present investigative personnel of the Federal Bureau of Investigation to maintain the work of the Federal Bureau of Investigation in a current status.

It is essential that the fingerprint records and the technical evidence being forwarded to the Federal Bureau of Investigation for handling be promptly handled and the need for personnel at the Seat of Government mainly stems from the Identification Division wherein the fingerprint records are handled. All employees being recruited for the Identification Division are female. We have not recruited any draft-eligible male employees for such activities for the past several years. The appropriation for the Federal Bureau of Investigation for the next fiscal year is still pending and it cannot at this time be definitely stated the number of personnel which will be allowed for our activities then.

Gentlemen:

The above-named registrant was classified II-A until June 9, 1944, by the Board of Appeal. I have been advised that Mr. Stukenbroeker has been called for a pre-induction physical examination. In view of the fact that this registrant holds a key position and a replacement cannot be made at this time, a Form 42-A Special has been prepared and submitted to the Review Committee on Indeferral of Government Employees. If this Committee approves the request, it will then be presented to the State Director of the locality in which Mr. Stukenbroeker is principally employed for his consideration and approval.

Your cooperation in this matter is appreciated and every effort will be made to have this case passed upon at the earliest possible time, and you will be promptly advised of the results of such request.

Sincerely yours,

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who had contributed to this fund subsequent to April 15, 1944, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000.

The following person is hereby designated as my beneficiary:

STUKENBROEKER, FERN C.
Special Agent
Annual Efficiency Report

EOD 11-16-42

The above-named Agent presents a good appearance, has a serious personality, and dresses neatly at all times. He has a fair amount of initiative, is resourceful, aggressive, and can be forceful.

He has no rating as a dictator, inasmuch as he has been exclusively assigned to a highly confidential technical surveillance since June 23, 1943, where his knowledge of the Bureau's technical equipment has been used to advantage. He is qualified in the operation of an automobile. His firearms record is average, and he can be used on dangerous assignments. He is a fair typist, and his reports are prepared in good form. He makes contacts readily.

SAC HOTEL:

Presents a fair appearance, has a serious personality and dresses neatly at all times. Has a fair amount of initiative, resourcefulness and aggressiveness. He has no rating as a dictator since he has been assigned exclusively to a technical surveillance. He is qualified in the operation of an automobile. His firearms record is about average, and he can be used on dangerous assignments. He is a fair typist and would make contacts in a fair manner.

INSPECTOR DOYLE:

It is noted this employee is 25 years of age. He has been assigned to technical surveillances since June, 1943 and apparently is qualified to handle the French language. He appears to be of an average type lacking in any particular personality and is young, but conscientious.

RE: FERN C. STUKENBROEKER, Special Agent
Selective Service Status

Dear Sir:

Please be advised that Special Agent FERN C. STUKENBROEKER, who is presently assigned to the Cleveland Field Division, has reported to me that he has been ordered to take his physical examination in Cleveland, Ohio, on May 18, 1944, by Local Board No. 1, St. Charles County, St. Charles, Missouri. He previously had been ordered to take his physical examination on April 19, 1944, in St. Charles, Missouri, but requested that the physical be transferred to Cleveland, Ohio.

RE: TERRY GULLON STUBENBROEKER
(Order Number 2757)

Gentlemen:

The Inter-Agency Committee has determined that the position of Special Agent held by Mr. Stubenbroeker comes within the criteria previously adopted by that Committee for approving exceptions to the general rule that registrants under 26 years of age should not be granted occupational deferment.

The Inter-Agency Committee has authorized the President's Review Committee on Deferral of Government Employees to approve and certify this case for further deferment which action has been taken by the President's Review Committee. A D.S.S. Form 42-A Special has been sent to the State Director of Selective Service for Ohio, the principal place of employment of this registrant, for his consideration and approval. It is expected that you will receive this Form 42-A Special in the very near future and the Agency Committee of the Federal Bureau of Investigation respectfully requests your reconsideration of this case.

FERN C. STUKENBROEKER
Special Agent
60-Day Efficiency Rating

This agent presents a good personal appearance, has a friendly manner and a pleasing personality. He should therefore be able to make favorable contacts. He has shown average force and aggressiveness and is developing not only in this regard but is generally improving.

Carvin mkt
Agent STUKENBROEKER is a very willing and conscientious worker. He organizes and initiates his investigations well, accepts responsibility readily and completes his assignments without undue supervision. He is presently assigned to Selective Service and his work generally compares favorably with others on the squad. His reports have a minimum of error and show an appreciation of the issues involved.

This agent is rated as a good dictator who is well prepared and he proceeds at an average rate of speed. Constructively, however, it may be said that at times his speed is uneven - sometimes too fast, sometimes too slow, and occasionally he does not pause when dictating proper names to give the stenographer time to write such names. He has not yet testified in this field division but in moot court he testified clearly and I believe he will make a good witness.

This agent has no knowledge of shorthand but types sufficiently well to produce rough drafts. He is a qualified automobile driver. He has not engaged on any physical surveillances but his file reflects that he has operated on a technical surveillance for a considerable period of time and his work was most satisfactory. His file also discloses that he is familiar with the Bureau's technical equipment. His firearms record discloses generally good average scores; however, at times his scoring with the rifle is mediocre. During the course of his work in Selective Service, he has engaged in numerous arrests and has handled himself capably and coolly. I believe therefore he can engage in assignments involving danger.

I feel that this agent is entitled to a rating of Good.

I have read this rating

Appeal Procedure

Any person entitled to do so may take an appeal to the board of appeal within 10 days after the above date of mailing of Notice of Classification to registrant in either of the following ways:

- (1) By filing with the local board a written notice of appeal. Such notice need not be in any particular form but must state the name of the registrant and the name and identity of the person appealing so as to show the right of appeal.
- (2) By signing the "Appeal to Board of Appeal" on the Selective Service Questionnaire (Form 40).

The person appealing may attach to his notice of appeal or to the Selective Service Questionnaire (Form 40) a statement specifying the respects in which he believes the local board erred, may direct attention to any information in the registrant's file which he believes the local board has failed to consider or give sufficient weight, and may set out in full any information which was offered to the local board and which the local board failed or refused to include in the registrant's file.

Appeal to the President from classification by the board of appeal may be taken at any time within 10 days after the date of mailing of notice to registrant, provided the registrant was classified by the board of appeal in either Class I-A, Class I-A-O, or Class IV-E and one or more members of the board of appeal dissented from such classification. Otherwise, the decision of the board of appeal is final except when an appeal is taken to the President either by the State Director of Selective Service or the Director of Selective Service on the ground that he deems it to be in the national interest or necessary to avoid an injustice.

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who had contributed to this fund subsequent to August 31, 1944, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000.

The following person, is hereby designated as my beneficiary:

- (1) By filing with the local board a written notice of appeal. Such notice need not be in any particular form but must state the name of the registrant and the name and identity of the person appealing so as to show the right of appeal.
- (2) By signing the "Appeal to Board of Appeal" on the Selective Service Questionnaire (Form 40).

The person appealing may attach to his notice of appeal or to the Selective Service Questionnaire (Form 40) a statement specifying the respects in which he believes the local board erred, may direct attention to any information in the registrant's file which he believes the local board has failed to consider or give sufficient weight, and may set out in full any information which was offered to the local board and which the local board failed or refused to include in the registrant's file.

Appeal to the President from classification by the board of appeal may be taken at any time within 10 days after the date of mailing of notice to registrant, provided the registrant was classified by the board of appeal in either Class I-A, Class I-A-O, or Class IV-E and one or more members of the board of appeal dissented from such classification. Otherwise, the decision of the board of appeal is final except when an appeal is taken to the President either by the State Director of Selective Service or the Director of Selective Service on the ground that he deems it to be in the national interest or necessary to avoid an injustice.

Appeal Procedure

Any person entitled to do so may take an appeal to the board of appeal within 10 days after the above date of mailing of Notice of Classification to registrant in either of the following ways:

- (1) By filing with the local board a written notice of appeal. Such notice need not be in any particular form but must state the name of the registrant and the name and identity of the person appealing so as to show the right of appeal.
- (2) By signing the "Appeal to Board of Appeal" on the Selective Service Questionnaire (Form 40).

When an appeal is taken from the classification or reclassification of a registrant and when such appeal is upon the ground that the registrant should have been deferred by reason of his occupation, the appeal shall be transferred to the board of appeal having jurisdiction over the area in which the registrant is employed, provided all of the following conditions are met (but not otherwise):

- (1) The first person to appeal from such classification or reclassification files with his appeal a written request for such transfer;
- (2) The written request states in what respect an occupational question is involved; and
- (3) The written request states the name of the registrant's employer and the street address, county, and State where the registrant is employed.

The person appealing may attach to his notice of appeal or to the Selective Service Questionnaire (Form 40) a statement specifying the respects in which he believes the local board erred, may direct attention to any information in the registrant's file which he believes the local board has failed to consider or give sufficient weight, and may set out in full any information which was offered to the local board and which the local board failed or refused to include in the registrant's file.

Appeal to the President from classification by the board of appeal may be taken at any time within 10 days after the date of mailing of notice to registrant, provided the registrant was classified by the board of appeal in either Class I-A, Class I-A-O, or Class IV-E and one or more members of the board of appeal dissented from such classification. Otherwise, the decision of the board of appeal is final except when an appeal is taken to the President either by the State Director of Selective Service or the Director of Selective Service on the ground that he deems it to be in the national interest or necessary to avoid an injustice.

RE: FERN CULLOM STUKENBROEKER
Order Number 2757

Gentlemen:

Receipt is acknowledged of your Classification Advice dated December 21, 1944, wherein you advise that Mr. Stukenbroeker has been placed in Class I-A. The Review Committee of the War Manpower Commission, established under the provisions of Executive Order 9309, has determined the position of Special Agent held by Mr. Stukenbroeker to be a key position within the meaning of Executive Order 9309, and you will recall that under date of December 22, 1944, D.S.S. Forms 42 and 42-S were forwarded to your Board requesting further deferment for Mr. Stukenbroeker.

Under the provisions of Executive Order 9309, Section II, Paragraphs 2 and 3, the Chairman of the War Manpower Commission has approved a Regional Committee for the Federal Bureau of Investigation. This request for occupational deferment by this Bureau has been reviewed and approved by the Agency Committee, and the Agency Committee has approved our request for an appeal of your classification in this case.

In accordance with the provisions of Local Board Memorandum Number 115-F and in view of the fact that Mr. Stukenbroeker occupies a position in this Bureau that has been designated as a key position by the Review Committee on Deferment of Government Employees of the War Manpower Commission and as it is not possible at this time to secure a replacement for him, it is requested that your Board give consideration to granting further occupational deferment in this case or that this letter be considered as a formal request for an appeal.

The principal place of employment of this registrant is Cleveland, Ohio.

Sincerely yours,

John Edgar Hoover

DATE: Jan. 6, 1945

R. A. WALTER, clerk, Local Board No. 1, Selective Service System, St. Charles, Missouri, on January 5, 1945 advised Assistant Special Agent in Charge H. K. MOSS that Special Agent FERN CULLOM STUKENBROECKER was reclassified by instant board and placed in classification 2-A on January 4, 1945. He had previously been placed in classification 1-A because, according to Mr. WALTER, instant board had not received from the Bureau the usual occupational request for a deferment.

Washington, D. C.

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who had contributed to this fund prior to February 10, 1945, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000.

The following person is hereby designated as my beneficiary for F. B. I. Agents' Insurance Fund:

Name SARA J. STUKENBROEKER Address 10310 SHAKER BLVD., CLEVELAND, Ohio.
Relationship Wife Dated JANUARY 25, 1945

The following person is hereby designated as my beneficiary under the Chas. S. Ross Fund providing \$1500-death benefit to beneficiary of agents killed in line of duty.

FIREARMS INSTRUCTOR'S COMMENTS: This Agent

has a good knowledge of weapons, is average emotionally and in demeanor, is interested, tries hard, does his share of work, is attentive, strict in observance of safety rules; and good in marksmanship, general ability, knack and skill. He is Qualified to go on Raids and Special Details.

REMARKS: Interviewing Official: Mr. H. B. Long

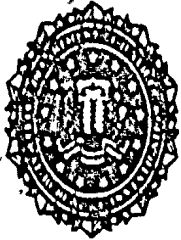

This man is assigned to Cleveland. He carries as his offices of preferences New York, Boston and Memphis. It is noted that he is from Missouri. He commented that it did not make much difference to him where he was assigned. The only reason he showed New York and Boston was that he had never worked in that section of the country and thought he would like to try. In Cleveland, he is working on Communist matters.

RECORDED

This man presents a good appearance and has a good approach. He dresses neatly and is possessed of a friendly personality. He impresses you as being interested, enthusiastic and possessed of a good attitude. He commented that he is very well satisfied in Cleveland. He was a little nervous and confused during the interview.

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who had contributed to this fund prior to July 30, 1945, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - ~~MONEY ORDER~~) the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000.

The following person is hereby designated as my beneficiary for F. B. I. Agents' Insurance Fund:

FERN C. STUKENBROECKER
Special Agent
Annual Efficiency Rating

This agent dresses in accordance with Bureau standards, presents a neat appearance and possesses an agreeable personality. He is a bit reserved and very businesslike but is aggressive and forceful in his work. He is intelligent and has exhibited initiative and resourcefulness above the average. He is a sincere, conscientious, thorough, willing worker, is enthusiastic about his work and performs a volume far above average.

Agent STUKENBROECKER is a competent automobile driver, types sufficiently for rough draft purposes but has no knowledge of shorthand. His firearms scores are good and I consider him available for assignments involving danger. Thus far he has not engaged in physical surveillance work but I have no reason to doubt his ability along that line and he has a very suitable build and appearance for such work. Although he has had no opportunity to testify in Federal Court, his performance in moot court has been observed and it is believed he would be a creditable Bureau witness as he handled himself most properly on the witness stand. He was at ease, yet properly alert and sincere in manner, and spoke with a clear voice.

This agent handles contacts with business men and law enforcement officers well and has developed a large number of informants among nationality groups with regard to National Defense work. He organizes and initiates investigations very efficiently, willingly accepts responsibility and discharges his duties with almost no supervision. He has improved his dictation since the last rating to a point between very good and excellent, always being well prepared, considerate and dictating at a fast, smooth tempo. His reports are excellent as to both form and content and reflect a minimum of error.

During the past year STUKENBROECKER has investigated cases in the following categories: National Defense - 25, 65, 97, 100, 105. He has handled no General Investigative cases. He is presently assigned to Communist matters, principally those regarding nationality groups. This agent has an intensive background and interest in European Political Science and his work in this field has been excellent indeed.

Thus far I have observed no supervisory ability on the part of the agent and he has been afforded no experience in supervisory work.

This agent appears to be in good physical condition.

FERN C. STUKENBROEKER
Special Agent
Annual Efficiency Rating

This is an annual efficiency rating submitted on Special Agent FERN C. STUKENBROEKER, who entered on duty as a Special Agent on November 16, 1942, and who reported to the Cleveland Field Division for assignment on April 17, 1944.

Agent STUKENBROEKER presents a good personal appearance and a quiet, friendly type of personality. He is extremely businesslike in his manner and approach, is a very hard worker and one of the most conscientious agents in the office. He is aggressive, resourceful and ambitious and has been found extremely cooperative and dependable.

This agent is a very good dictator, has had no difficulty in the handling of Bureau firearms and although he has not appeared before the Grand Jury and in Federal Court, it is my opinion he would make a good Bureau witness. He is above average in his firearms scores and in my opinion is capable of assignment to work involving danger in view of his calm, level-headed manner, ability to exercise good judgment and to think independently.

During this period, this agent has been used on a physical surveillance of six days duration and handled himself very well. He can operate a typewriter well enough for rough draft purposes but does not take shorthand. The reports submitted by this agent are definitely above average. He has a good working knowledge of the Bureau's manuals, is able to apply them practically in his every-day work and submits his reports promptly. He is a thorough investigator who recognizes the issue involved and concentrates on a logical conclusion thereof. His volume of production is above average.

Agent STUKENBROEKER's contacts with law enforcement officials and business men are good. He organizes his work efficiently and in a businesslike manner and initiates investigations promptly. He does not hesitate to accept responsibility and discharges the same without supervision. He is in good physical condition and is capable of performing arduous physical exertion.

During the past year, Agent STUKENBROEKER has had the following types of assignments:

National Defense - 65, 97, 100, 105

For approximately ten months, this agent was assigned principally to Communist matters involving nationality groups. He has an excellent background and interest in European political science and his work in this field has been excellent. He might be considered somewhat of an expert therein. Subsequently he was assigned to the following types of Criminal cases:

25, 26, 42, 52

Agent STUKENBROEKER has had no opportunity to demonstrate supervisory, administrative or executive ability. It is my opinion, however, that he has latent supervisory ability which could be developed with experience.

Based on this agent's performance, he is entitled to a rating of Excellent in Grade CAF 11.

ENTERED ON DUTY: November 16, 1942

SALARY: \$4300

OFFICE PREFERENCE: BOSTON

EXAMINATION: SET #10 - GRADE 91%

SAC O'Connor:

Agent Stukenbroeker presents a neat personal appearance and a quiet, friendly type of personality. He is conscientious, industrious and a very hard worker. His assignments are generally handled with dispatch and are well organized. His paper work requires a minimum amount of supervision. This agent has a very good foundation for the investigation of nationality groups and has been used extensively on the analysis of material received on those organizations and groups. He has an above-average knowledge of the nationality groups whose background lies in the Balkan states. His work has been very satisfactory.

Status: VERY GOOD.

INSPECTOR CONNELLEY:

This Agent makes a good first impression. His appearance is good and he is enthusiastic and conscientious about the Bureau's work. He is intelligent and alert, and has a friendly personality. He has been assigned to the Cleveland Office since April 1944, having previously worked in the Baltimore and Washington Field Divisions. For the past year he has been assigned to the handling of cases involving the Communist infiltration of foreign language groups. I believe he is an average agent in his grade.

Dear Mr. Stukenbroeker:

The Bureau is in receipt of the report of the physical examination afforded you at the United States Naval Hospital, Quantico, Virginia, on September 18, 1946.

This report reflects that you have no physical defects.

The Board of Examining Physicians of the United States Naval Hospital reports that you are capable of performing strenuous physical exertion and have no physical defects that would interfere with your participation in raids or other work involving the practical use of firearms.

FERN C. STUKENBROEKER
Special Agent
Special Efficiency Rating

This special efficiency rating is being submitted pursuant to SAC Letter Number 135, Series 1946, dated December 17, 1946.

This agent entered on duty as a Special Agent on November 16, 1942. He dresses in a conventional manner and makes a very good appearance. He is businesslike in his manner, has a genial disposition and is very cooperative in the discharge of all his duties. He is aggressive and resourceful.

Agent STUKENBROEKER is one of the best read agents in the office, specializing in subjects involving history and political science. This makes him especially fitted in his present assignment in handling nationality groups. He has an excellent command of the English language and his reports are well written.

Cmer

This agent handles firearms effectively and I would not hesitate to assign him to a case involving danger in view of his ability in this connection and his good judgment. He is well grounded in the Bureau's manuals and procedures, pursues his investigations to a logical conclusion and his production is above average.

Based upon this agent's performance, I feel he is entitled to a rating of Excellent in Grade CAF 11.

CIRCULAR NO. 3959

TO ALL EMPLOYEES:

Subject: Affidavit regarding membership in organizations which assert the right to strike against the Government.

Appropriation bills for the fiscal year 1947 provide that no part of the appropriation shall be used to pay the salary or wages of any person who engages in a strike against the Government of the United States or who is a member of an organization of Government employees that asserts the right to strike against the Government of the United States. It is provided that for the purpose of this legislation an affidavit shall be considered prima facie evidence that the person making the affidavit has not contrary to the provisions of this law engaged in a strike against the Government of the United States and is not a member of an organization of Government employees that asserts the right to strike against the Government of the United States.

All employees must execute the affidavit on the other side of this circular. When you have signed the affidavit it should be returned promptly to your immediate supervisor who will forward it through regular channels (for noting against payroll records) to the Administrative Assistant to the Attorney General.

Certifying Officers shall not release salary checks until this affidavit has been prepared and forwarded.

FERN C. STUKENBROECKER
Special Agent
Annual Efficiency Rating

This is an annual efficiency rating on Special Agent FERN C. STUKENBROECKER, on whom a special efficiency rating was rendered pursuant to SAC Letter 135, Series 1946, dated December 17, 1946. The comments contained in that special efficiency rating are applicable at this time.

In addition to the above information, this agent has worked on the following types of cases during the past year:

3, 25, 26, 42, 52, 57, 62, 65, 87, 88,
97, 98, 100, 104, 105

This agent is considered a capable Bureau witness and has operated on several physical surveillances during the past year in a creditable manner. He is able to use a typewriter but does not take shorthand. This agent has not had an opportunity to date to demonstrate supervisory, administrative or executive ability.

From the work performed by this agent and his loyal, cooperative attitude, he is being rated Very Good in Grade CAF 12.

I have read this rating

SUBJECT: REALLOCATIONS

Attached is a list of Special Agents in Grade CAF 11 who are eligible for reallocation to Grade 12.

Their Special Agents in Charge have advised they are all developing satisfactorily and there appears to be nothing which would warrant considering them unfavorably for reallocation.

It is recommended they be reallocated to Grade CAF 12, \$5905.20 per annum, effective 2-3-47.

FERN C. STUKENBROEKER
Special Agent
Special Efficiency Rating

This is a special efficiency rating submitted in connection with my transfer.

This agent is presently assigned to the Communist Squad. He is charged with the duty of preparing the summary on the Communist Party in this district and in addition handles the nationality groups and the submission of the various informative reports necessary in the Communist breakdown. He is well versed in these activities, being outstanding in so far as knowledge of nationality affairs is concerned. His reports are detailed, yet well prepared and written. He possesses the ability to evaluate information and to foresee ramifications not readily apparent on their face.

Agent STUKENBROEKER exercises excellent judgment, is effective in the presentation of his ideas and facts, is very industrious, resourceful and dependable. He produces an above-average volume of work. He is strong physically and outside of accounting work I would not hesitate to assign him to any type of investigation.

This agent handles firearms effectively. He has acted in a supervisory capacity in the absence of Supervisor CLYDE E. SMITH and has discharged these responsibilities in an effective manner. I feel that he does possess supervisory ability.

Based upon this agent's performance, I rate him as Excellent in Grade CAF 12.

Director
Federal Bureau of Investigation
United States Department of Justice
Washington, D. C.

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who had contributed to this fund prior to July 15, 1947, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000.

The following person is hereby designated as my beneficiary for F. B. I. Agents' Insurance Fund:

Name MRS. SARA J. STUKENBROEKER Address 10310 SHAKER BLVD, CLEVELAND, OHIO.
Relationship Wife Dated JUNE 20, 1947

The following person is hereby designated as my beneficiary under the Chas. S. Ross Fund providing \$1500-death benefit to beneficiary of agents killed in line of duty.

Name MRS. SARA J. STUKENBROEKER Address 10310 SHAKER BLVD, CLEVELAND, OHIO.

Special Efficiency Rating

Since the submission of an annual efficiency rating on this agent dated April 10, 1948, nothing has occurred which would change his status in any way. It is noted, however, that the office received a commendatory letter from the Bureau in connection with a report which he submitted on the Communist Party, USA, District Number 6, Cleveland Division. The Bureau commented that Agent STUKENBROEKER had properly followed Bureau instructions and was to be commended on the excellent manner in which he prepared this report.

Dear Mr. Stukenbroeker:

The Bureau is in receipt of the report of the physical examination afforded you at the United States Naval Hospital, Bethesda, Maryland, on October 22, 1948.

This report reflects that you have no disqualifying physical defects.

The Board of Examining Physicians of the United States Naval Hospital reports that you are capable of performing strenuous physical exertion and have no physical defects that would interfere with your participation in raids or other work involving the practical use of firearms.

Sincerely yours,

F. Stukenbroeker
Special Agent
CAF 12 - \$6474.60
EOD - November 16, 1942
Assigned - Crime Records

While somewhat small in stature, this Special Agent has a favorable physical appearance. He is most congenial and gets along well with his fellow employees.

Since his assignment in Crime Records on June 20, 1948, he has been engaged in general research and related duties. He has an excellent command of the English language, is able to work under pressure and can be depended upon to turn out a much better than average product in a short period of time. His background in Communist matters in the Cleveland Office is particularly valuable in his research work in Crime Records.

In addition this Special Agent has handled a number of press releases and has been used on special tours of the Bureau. He has also handled a number of speaking engagements in the vicinity of Washington and the response has been most satisfactory. He also supervised the preparation of extensive material for a television program over one of the local television stations.

APR 27 1948
FEDERAL BUREAU OF INVESTIGATION

It might be noted that after his transfer from the Cleveland Office to the Seat of Government the Cleveland Office received a letter of commendation from the Bureau in connection with a report on Communist matters prepared by this Special Agent prior to the transfer.

It is felt that Special Agent Stukenbroeker definitely has the interest of the Bureau at heart; in fact on numerous occasions he has voluntarily worked long hours of over time on projects having short deadlines. It is felt that he should definitely be kept in mind for further advancement and that on the basis of his work thus far he is entitled to the rating of Excellent in Grade CAF 12.

Washington, D. C.

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who had contributed to this fund prior to November 30, 1948, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by ~~CHECK - MONEY ORDER~~) *Cash* the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000.

The following person is hereby designated as my beneficiary for F. B. I. Agents' Insurance Fund:

Name MRS. FERN C. STUKENBROECKER Address 3110 WELLINGTON RD., ALEXANDRIA, VA.

ASSISTANT DIRECTOR NICHOLS:

This Special Agent, while rather small in stature, presents a favorable physical appearance. He is somewhat serious-minded, but congenial and gets along well with the other employees. He has been assigned to Crime Records approximately 1 year and during this period of time has made exceptionally rapid progress. He is one of the best original writers who has been assigned to Crime Records during the past 7 or 8 years. He can be depended upon to turn out a uniformly good product in a minimum amount of time. He is a most willing worker and regardless of the time is always ready for additional projects. Before his assignment to Crime Records he was in charge of Communist activities in the Cleveland Office. At the present time his previous training is particularly valuable in doing original writing on matters pertaining to Communism. Agent Stukenbroeker has handled a number of speeches and special tours and has done excellent work in this regard. Status: EXCELLENT.

INSPECTOR GURNEA:

Mr. Stukenbroeker dresses neatly, conservatively and businesslike. He presents a good appearance and has a good personality. During the interview he exhibited interest and enthusiasm and apparently enjoys writing. The reports on him indicate he is doing a very satisfactory job in the Crime Records Section. I believe he is a satisfactory Supervisor.

Subject:

Reference is made to the Director's inquiry as to the preparation of the article for the Colonial Review of George Washington University.

The incoming letter of January 12 was acknowledged on January 17 and we purposely refrained from promising the article at a specific date though at the time we anticipated having it for his use around the middle of February.

As you were previously advised, our correspondence has been running twice as heavy as it was this time last year and we practically had to use three men full-time on this, Ash, Christiansen and Youngblood. As you know, correspondence must be given top priority at all times. Mr. Crosby has been out of the section most of the time since the request for the article for the Colonial Review came in.

You will recall too that during the last half of January, two and sometimes three men were tied up on memos on wire tapping which we were told were most expedite. Holloman and Stukenbroeker worked primarily on these and were assisted to some extent by Wick,

Mr. Carroll has been tied up practically full-time on the Law Enforcement Bulletin and Mr. Suttler and Kemper have been loaded down with other projects.

When the Colonial Review article came in it was assigned to Mr. Wick who made every effort to get out this article but it was necessary to continue to assign him other projects of an even more urgent nature which had positive dead lines to meet. When it became evident that Mr. Wick could not get to this particular article it was assigned to Mr. Stukenbroeker even though he at the time was working on the 12,000 word law review article for the Syracuse Law Review Journal, a stupendous project which was wanted by a specific time. In order to get the Colonial Review article out, Mr. F.C. Stukenbroeker worked on it in its entirety at night at home and it was time sent through for your attention this past Monday.

I attribute the delay in the preparation of this article to the fact that we just have not had enough manpower in this section to take care of all the projects we have been attempting to carry out.

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by ~~CHECK~~ - MONEY ORDER) the sum of \$10, payable to the Chief Clerk of the FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Chief Clerk of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

Name Sara J. Stukenbroeker Relationship Wife Date March 20, 1950

Address 3110 Wellington Road, Alexandria, Virginia

The following person is designated as my beneficiary under the Chas. S. Ross Fund providing \$1500 death benefit to beneficiary of agents killed in line of duty.

FERN C. STUKENBROEKER
Special Agent
GS-12 \$6800
EOD - 11/16/42
Assigned - Crime Records

This Special Agent, though somewhat short, presents an excellent physical appearance. Mr. Stukenbroeker has an outstanding personality and gets along exceedingly well with others with whom he works.

This is the first full year Special Agent Stukenbroeker has served in Crime Records and during this time he has shown remarkable development. He is outstanding as a research man and is able to turn out a far above average volume of work of uniformly excellent quality.

In view of Mr. Stukenbroeker's fine educational background, he is outstanding in original composition. He has a great deal of imagination and is perhaps the best Special Agent in this regard who has been assigned to Crime Records in a number of years.

In addition to numerous research assignments, this Special Agent has been used for special tours and a number of speaking engagements in Washington and vicinity. The response has been uniformly outstanding.

On the basis of this supervisor's work in this Section during the past year, I feel that he is entitled to a rating of Excellent.

I want to call to your attention the most outstanding job which is being done by the above-mentioned Special Agent. Stukenbroeker has B.S., M.A. and Ph.D. Degrees and is perhaps the most outstanding Special Agent from the standpoint of original composition who has been assigned to Crime Records in my experience here.

Special Agent Stukenbroeker is an exceedingly diligent worker and on numerous occasions has put in long hours of extra work away from the office working on projects with specific deadlines. I recall on one occasion when we needed something extra special I called him at his home one Saturday and outlined the nature of the rather extensive project which would be needed early Monday. He had the project ready in fine style and it was not necessary to make a single change or correction.

You will recall that Agent Stukenbroeker's Annual Efficiency Report, which was recently submitted, was EXCELLENT in grade GS-12. His 1949 and 1948 annual reports were likewise EXCELLENT and his 1947 annual report was VERY GOOD.

Agent Stukenbroeker has been in grade GS-12 since February 3, 1947. He has a well rounded Bureau experience, having served in Baltimore, Washington Field, and Cleveland prior to being assigned to the Crime Records Section on June 20, 1948. He, of course, has been in the Bureau since November 16, 1942. Special Agent Stukenbroeker is well-versed in Bureau policy and investigative matters and is capable of handling the most complicated type of case. This Special Agent is in excellent health, having just recently undergone a physical examination at the Naval Hospital. He is able to function satisfactorily on dangerous assignments requiring extreme physical exertion.

Special Agent Stukenbroeker really has the Bureau at heart and is available at any time for assignments of any nature, whether special or general.

As noted above, Special Agent Stukenbroeker has been in Crime Records since June 20, 1948, or approximately two years, and

Memorandum to Mr. Nichols
Re: Fern C. Stukenbroeker

April 28, 1950

immediately prior to his assignment in Crime Records he was an approved Relief Supervisor in the absence of the Special Agent in Charge or the Assistant Special Agent in Charge at the Cleveland Office. This was approved by the Bureau on February 11, 1948. Under date of December 24, 1947, the Special Agent in Charge at Cleveland advised the Bureau that Stukenbroeker had been acting in a supervisory capacity on the Communist Desk when Supervisor Clyde Smith was absent.

Typical of the exceptionally fine work done by Agent Stukenbroeker is the article entitled "The Civil Investigations of the FBI" which appears on Page 380 in the attached copy of the Spring, 1950, issue of the Syracuse Law Review. It will be noted that this article extends from Page 380 through 403 and is a really comprehensive treatment of a phase of the Bureau's work which is not too well-known to the public. This article is really a scholarly masterpiece and reflects great credit upon the FBI.

RECOMMENDATION:

In view of the really outstanding character of this Special Agent's performance, it is recommended that consideration be given to his being promoted from Grade GS-12 to Grade GS-13 at the present time. If this should not be within Bureau policy, it is recommended that he be reconsidered for reallocation at the conclusion of three months. In any event, it is felt that Mr. Stukenbroeker should be commended at this time on his work in general and specifically on the contribution which was submitted to the Syracuse Law Review.

Under date of April 12 I concurred with Mr. Jones' recommendation that Agent Stukenbroeker be reallocated from grade GS-12 to GS-13. I now withdraw my recommendation and recommend no action and that the matter be further considered on July 1.

Mr. Jones' recommendation was predicated upon the splendid job that Stukenbroeker did for the Syracuse Law Review re Civil Investigations of the FBI. I still think he should be commended for this job. The basis for my action in withdrawing and recommending unfavorably is predicated upon the fact that Mr. Stukenbroeker utilized verbatim two paragraphs in the text of the Director's remarks before the Grand Lodge of New York which were in a speech the Attorney General had made on April 19. While it was true that Mr. Stukenbroeker called this to my attention on Monday afternoon in sufficient time to correct the matter, the fact remains that the two identical paragraphs should not have been put in the Director's address unless we were so informed at the time.

Despite my unfavorable recommendation I desire to point out that Stukenbroeker is exceedingly cautious; he is very capable and on the whole has done an outstanding job as the Director indicated by his notation on Mr. Jones' memorandum of April 12. I have advised Mr. Stukenbroeker of this recommendation and the reasons for it.

On April 12th I recommended reallocation of Agent Stukenbroeker to Grade GS-13. This was approved by you and the Director.

Prior to its effective date, I withdrew my recommendation and recommended that no action be taken on this but the matter was to be further considered on July 1 as a result of Stukenbroeker's using a couple of paragraphs in a draft of a speech for the Director that had appeared in a speech that we had prepared for the Attorney General.

At that time, I had a long talk with Stukenbroeker and advised him of my action. He was exceedingly regretful and his spirit was excellent. I was convinced then as I am now that this was an oversight that will never happen again.

In view of the outstanding work that Stukenbroeker has been doing since that period, I now renew my recommendation for his reallocation from Grade GS-12 to Grade GS-13 at the earliest effective date.

This employee entered on duty as a Special Agent on 11-16-42 in Grade CAF-9, \$3200 per annum. He was reallocated to Grade CAF-12, \$5905.20 per annum, on 2-3-47, and as the result of two Uniform Promotions and two basic increases in pay, his present salary is \$6800 per annum in Grade GS-12. He is being considered for reallocation to Grade GS-13.

In February, 1948, Bureau authority was granted his SAC to utilize his services as relief supervisor.

On 3-31-48 and 3-31-49 he was rated EXCELLENT.

It is noted that in November, 1949, in connection with a speech which he prepared, the Director noted "This man should be kept in mind, he has an excellent background, did a fine job on the speech and if properly guided and given the opportunity should be most valuable on preparation of material for public use."

On 3-31-50 Mr. Jones rated him EXCELLENT and said though somewhat short, he presented an excellent physical appearance, he had an outstanding personality and got along exceedingly well with others with whom he worked. He was perhaps the most outstanding Special Agent from the standpoint of original composition who had been assigned to Crime Records in Mr. Jones' experience there. He was an exceedingly diligent worker and on numerous occasions had put in long hours of extra work away from the office working on projects with specific deadlines. In 1948, 1949 and 1950 his efficiency reports were rated as Excellent. He had been in the Bureau since 11-16-42, and had been in Grade GS-12 since 2-3-47, and he had a well rounded Bureau experience. The Director noted "I think if necessary an exception should be made. Stukenbroeker is doing an outstanding job."

In a memorandum to Mr. Tolson dated 5-3-50, Mr. Nichols advised he concurred with Mr. Jones' recommendation that Agent Stukenbroeker be reallocated, but he was withdrawing his recommendation and recommending no action and that the matter be further considered on July 1, 1950. Mr. Nichols thought he should be commended for his work in the Spring, 1950, issue of the Syracuse Law Review. The basis for Mr. Nichols' action in withdrawing and recommending unfavorably was predicated upon the fact that Mr. Stukenbroeker utilized verbatim two paragraphs in the text of the Director's remarks before the Grand Lodge of New York which were in a speech the Attorney General had made on April 19, 1950. Mr. Stukenbroeker called the matter to Mr. Nichols' attention on Monday afternoon in sufficient time to correct it, but the fact remained that the two identical paragraphs should not have been put in the Director's address unless attention was called to the fact at the time. Despite Mr. Nichols' unfavorable recommendation he desired to point out that Stukenbroeker was exceedingly cautious, he was very capable and on the whole had done an outstanding job as the Director had indicated. He advised the Agent of the recommendation and the reasons for it.

A review of his file reflects that he is qualified to handle the most complicated investigative matters referred to the Bureau for attention; his physical condition is such that he could function satisfactorily on any assignment; he had been recommended as being qualified to supervise or handle any dangerous assignments; he is available for assignment either in special instances or for routine assignments anywhere his services are needed; and he has received consistent Excellent efficiency ratings for the past three years. With relation to his supervisory experience, it is noted that while assigned to the Cleveland Office he was approved on 2-11-48 as a Relief Supervisor in the absence of the SAC or the ASAC. He was transferred to the Crime Records Section on June 28, 1948.

RECOMMENDATION: In view of Mr. Nichols comments and the fact that this Agent does not have 3 years of continued supervisory experience it is recommended that he be passed over and be reconsidered in July, 1950.

Re: SUPERVISORY PERSONNEL

Dear Sir:

ReBulet May 15, 1950, to the effect that Bureau regulations do not permit the utilization of Special Agents who have been approved for Saturday and holiday supervisory duty to assume the duties of relief supervisors on the various desks on other days in the temporary absences of the regular approved full-time supervisors. I was unaware that Bureau policy makes a distinction in this regard and had thought that this office already had authorization to use all of our Bureau approved relief supervisors either on Saturdays or at any other time their services might be needed in the absence of the regular desk men, based upon the following correspondence:

Personal and Confidential letter to the Bureau dated January 22, 1948, from SAC D. K. BROWN re: "Relief Supervisors."

"There are at the present time an insufficient number of approved relief supervisors in the Cleveland Office. I have observed the work of the following agents and feel they are thoroughly qualified to act in the absence of the SAC and ASAC and it is requested that the Bureau approve their use as relief supervisors: EDWIN C. JONES, FERN C. STUKENBROEKER, and ROBERT H. WYNN."

Bureau letter of January 31, 1948, re: "Supervisory Personnel."

"Reurlet January 22nd. Bureau authority is hereby granted for you to utilize the services of the following Special Agents as relief supervisors in your division in the absence of either yourself or the Assistant Special Agent in Charge: EDWIN C. JONES, FERN C. STUKENBROEKER, and ROBERT H. WYNN."

My letter dated December 16, 1948, re: "Substitute Supervisors, Cleveland Division."

Director, FBI

June 27, 1950

"The records of this office reflect that at the present time we have Bureau authorization to employ the following experienced agents in a relief supervisory capacity at the office on Saturdays and at other times: CLARE F. ~~CARTER~~, RALPH O. ~~DUNKER~~, CARL A. ~~HERRING~~, EDWIN C. JONES, ROBERT E. ~~KEHRES~~, and ROBERT H. WYNN.

"Inasmuch as we presently have four regular supervisory desks at the office and to allow for the granting of leave and other emergencies, in the absence of contrary instructions from the Bureau, it will be assumed that the following additional agents are also approved for such relief supervisory duty: THOMAS M. ~~CORBETT~~, JOHN P. ~~HYLAND~~, JAMES F. ~~KELLY~~, LORENZ H. ~~MARTIN~~, HARRY S. ~~MILLER~~, RICHARD A. ~~SECORD~~, and DAVID A. ~~SHAPIRO~~.

"It should be noted that all of the above agents are experienced men in Grade CAF-12 and it is thought that by using them alternately on the various desks, they will be enabled to receive administrative training."

Bureau reply dated December 29, 1948, re: "Substitute Supervisors" begins:

"Reurlet December 16, 1948. The Bureau approves your request for authority to utilize Special Agents THOMAS M. CORBETT, JOHN P. HYLAND, JAMES F. KELLY, LORENZ H. MARTIN, and DAVID A. SHAPIRO for relief supervisory duty.

"With respect to Special Agent RICHARD A. SECORD, the Bureau has no objection to your utilizing him provided you are satisfied that since his reinstatement on November 15, 1948, he has acquired the necessary refresher knowledge of Bureau policy and related matters. . .

"With regard to Special Agent HARRY S. MILLER, the Bureau feels that you should not utilize him in a supervisory capacity until after he has had In-Service for which he is scheduled January 17, 1949, and further. . . At such time as you feel he has demonstrated that he is fully capable, you may repeat your recommendation and the Bureau will afford it consideration at that time."

My letter dated January 11, 1949, re: "Substitute Supervisors, Cleveland Division."

"Rebulet December 29, 1948.

Director, FBI

June 27, 1950

"I have been favorably impressed with the manner in which Special Agent RICHARD A. SECORD has functioned since his reinstatement and will, consistent with reference letter, use him from time to time as a substitute supervisor.

"Under the circumstances, however, it would appear that at least for the present Special Agent HARRY S. MILLER not be permitted to function in this capacity and unless the Bureau instructs to the contrary, I will list Special Agent DAVID A. WIBLE as an additional substitute supervisor here in place of Agent MILLER."

P & C letter of September 14, 1948, from SAC D. K. BROWN re: "ROBERT E. KEHRES, Special Agent."

"This agent has been receiving relief supervisory training and his services are needed in a relief capacity on the No. 1 Desk which handles Communist matters. Accordingly, authority is requested to designate him a relief supervisor."

Bureau reply of October 4, 1948, re: "ROBERT E. KEHRES, Special Agent."

"Reurlet September 14, 1948. Bureau authority is hereby granted for you to utilize the services of the above-named agent as a relief supervisor."

In this connection also please refer to the report of the inspection conducted of the Cleveland Office July 15, 1948, by Inspector T. E. NAUGHTEN, where under the heading "Supervision of Work," SAC D. K. BROWN lists: "C. Bureau approved relief supervisors: CLARE F. CARTER, RALPH O. DUNKER, CARL A. HERRING, EDWIN C. JONES, ARTHUR W. PEJEAU, and ROBERT H. WYNN."

The report of the first self-inspection of this office conducted by the writer April 25, 1949, under the heading "Supervision of Work," reflects the following:

"The present SAC has obtained Bureau authorization for the designation of additional relief supervisors, in order that a qualified agent will be on duty on each of the four desks at all times and in order to provide for additional training along administrative lines of those experienced men possessing prospects in this regard. At the present time, therefore, of a total of 13 approved relief supervisors, who also alternately act in charge of the office on Saturdays, three are assigned to the SAC's desk, namely,

Director, FBI

June 27, 1950

"C. A. HERRING, E. C. JONES, and T. M. CORBETT; five alternate on the ASAC's desk, namely, R. A. SECORD, L. H. MARTIN, R. O. DUNKER, D. A. SHAPIRO, and R. H. WYNN; four relieve on the Security desk, namely, C. F. CARTER, R. E. KEHRES, J. F. KELLY, and D. A. WIBLE; J. P. HYLAND alternates on the desk of Supervisor PEJEAU."

Again in the report of the writer's second self-inspection at Cleveland as of January 30, 1950, the memorandum "Supervisory Personnel - Authority," Auxiliary Supervisors, is as follows:

"The present SAC has obtained Bureau authority for the designation of additional relief supervisors, in order that a qualified agent will be on duty on each of the four desks at all times, and in order to provide for additional training along administrative lines for those experienced men possessing prospects in this regard.

"At the present time, there is a total of twelve approved relief supervisors who alternately act in charge of the office on Saturdays. Three are assigned to the SAC's desk, namely CARL A. HERRING, EDWIN C. JONES, and THOMAS M. CORBETT. Five relief supervisors alternate on the ASAC desk; namely LORENZ H. MARTIN, DAVID A. SHAPIRO, RALPH O. DUNKER, ROBERT H. WYNN, and RICHARD A. SECORD. Three supervisors are assigned to the Security Desk, namely JAMES F. KELLY, ROBERT E. KEHRES, and DAVID A. WIBLE. On the applicant desk, JOHN P. HYLAND, JR. is the relief supervisor."

With the exception of the listing in Inspector NAUGHTEN'S inspection, referred to above, I am unable to find any clear-cut indication of Bureau approval for the use of Special Agent CARL A. HERRING as a relief supervisor, although upon my arrival in this district he was regarded and being used by the regular supervisory staff as their No. 1 relief supervisor in the temporary absences of the regular desk men. As indicated in my letter of April 28, 1950, captioned "Supervisory Personnel, Cleveland Division," Mr. HERRING is not and has not been serving as a full-time supervisor but does spend considerable time handling such duties on my desk in my absences as was indicated in this letter by me as follows:

"The supervisory procedure followed here where we have the work divided among four desks, as the Bureau is aware, is that we employ regularly designated relief supervisors on each of the desks, these being the men who are approved by the Bureau to handle the supervision of the office also on Saturdays and holidays. Several of these relief supervisors

Director, FBI

June 27, 1950

"function on each of the four squads, and in the temporary absence of the regular supervisors move up to handle respective desks. For example, on my squad, which consists principally of the accountants and other experienced agents who handle a high volume of Antitrust and Fraud cases, the Loyalty of Government Employee work, and other major cases, there are two regularly designated relief supervisors, namely, CARL A. HERRING and EDWIN C. JONES. While of course in my absence the ASAC moves up to take care of the majority of administrative matters which cannot await my return, the general case supervision on my desk with, of course, certain major case exceptions will be handled by Mr. HERRING and in his absence by Mr. JONES. There is the same situation with regard to the other three desks, it being noted that all of our regular supervisory personnel must necessarily be out of the office numerous times each month to handle speaking commitments, police school work and an occasional personnel matter or major interview or investigation.

"I am out of the office a great deal on regular SAC work which accounts for the fact that Agent HERRING does spend considerable time on my desk work. He also handles much liaison work with the office of the United States Attorney, various bank officials and the local office of the Anti-trust Division in connection with our rather high volume of such matters, in addition to performing regular investigative work. Agent JONES, although he was for a time handling the majority of the monthly inspection work and did revise our mailing lists, source of information and informant indices in keeping with recent Bureau instructions, for the most part performs regular investigative work outside the office."

I do feel that we need the services of all of the experienced men listed hereinabove, with the exception, of course, of those no longer in this district, for use from time to time as relief supervisors, both on Saturdays and holidays and at such other times as the regular desk men heading their respective squads are out of the office, and request the Bureau to grant this approval. In line with Bureau instructions I am keeping a careful record of the amount of time spent by our various relief men in performing administrative work on our four desks and will promptly furnish the Bureau a summary thereof at the conclusion of the sixty-day period.

Very truly yours,

R. J. ABBATICCHIO JR.

FERN C. STUKENBROEKER
Special Agent
GS-13, \$7600
EOD - November 16, 1942
Assigned - Crime Records

This report is being submitted in view of the passage of six months since this Special Agent received a grade raise. During this period Agent Stukenbroeker has continued to turn in an outstanding performance. He has a great deal of imagination and is able to express himself in an outstanding manner. His finished product requires very little attention.

During the pertinent period he has submitted a number of good ideas on ways to further advance the Bureau's work.

In addition to his primary work in original composition, he has taken a number of tours and also handled several Bureau speeches. Response from the latter has been very satisfactory.

This Special Agent is always congenial, gets along well with others and really has the Bureau's best interest at heart.

On the basis of Special Agent Stukenbroeker's work during the pertinent period I feel he is entitled to a rating of EXCELLENT in Grade GS-13.

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Chief Clerk of the FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner:

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Chief Clerk of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk directing him to pay to the designated beneficiary the sum of \$10,000. NARRATIVE COMMENTS

Note: The regulations require that OUTSTANDING ratings be supported by a statement in writing setting forth IN DETAIL the performance IN EVERY ASPECT and the REASONS for considering each worthy of SPECIAL COMMENDATION. UNSATISFACTORY ratings must be supported by a statement in writing stating (1) WHEREIN the performance is unsatisfactory, (2) the facts of the (90 day) PRIOR WARNING, and (3) the efforts made AFTER THE WARNING TO HELP the employee bring his performance up to a satisfactory level.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
0 No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

FERN C. STUKENBROEKER
Special Agent
GS-13, \$7600
EOD - November 16, 1942
Assigned - Crime Records

This Special Agent is of medium size and presents an excellent personal appearance. Agent Stukenbroeker has an outstanding personality and gets along well with other employees. He is enjoying the best of health.

During the past year this Agent has handled a limited number of special tours, several speaking engagements in the vicinity of Washington; the response of each has been highly satisfactory. During the most of the year he has been engaged in research work and in the preparation of original material for dissemination outside the FBI. He is well-versed in Communist matters and is invaluable in this regard in this Section.

Special Agent Stukenbroeker has a great deal of originality and presents for the Bureau's attention a great number of good ideas on further presenting the Bureau's work.

This Special Agent was promoted to Grade GS-13 on June 11, 1950. It is felt that he definitely is in a top bracket of SATISFACTORY and should be kept in mind for further advancement. He is an invaluable man in the Crime Records Section. |

PERSONAL AND CONFIDENTIAL

Mr. Fern C. Stukenbroeker
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Stukenbroeker:

The Bureau is in receipt of the report of the physical examination afforded you at the United States Naval Hospital, Bethesda, Maryland, on April 23, 1951.

This report reflects that you have no disqualifying physical defects.

The x-rays of your temporomandibular joints and the right temporomandibular region, afforded you in connection with a low grade pain on motion, failed to reveal any evidence of bone or joint disease.

The gastric intestinal series and the barium enema afforded you in connection with an "epigastric gnawing" also were normal; however, it is noted that you were given the necessary treatment for this condition if symptoms persist.

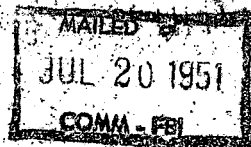

The Board of Examining Physicians reports that you are capable of strenuous physical exertion and have no physical defects that would interfere with your participation in raids or other work involving the practical use of firearms.

Sincerely yours,

John Edgar Hoover
Director

MEMORANDUM FOR MESSRS. ~~F.C.~~ KEMPER
~~F.C.~~ STUKENBROEKER

RE: SPECIAL AGENT APPLICANT INTERVIEWS AND EXAMINATIONS

I am attaching hereto a copy of a letter addressed to all Special Agents in Charge covering the Bureau's revised Special Agent applicant interviewing and examining procedure. The program is fully explained therein and need not be again set forth in this communication.

In conformity with information furnished to you previous to this time, you are being designated to handle Special Agent applicant interviews and examinations in nearby offices as needed.

I know I need not point out to you the importance of the proper implementation of this program. It has been pointed out to you prior to this time that many individuals totally lacking in the basic qualifications for appointment to the position of Special Agent have been favorably recommended by interviewing officials in the past and have entered on duty in our service. As a consequence, it has been necessary to take action at Washington to separate these individuals from our rolls after they have entered on duty. This action causes hardship for the applicant and subjects the Bureau to possible criticism through disgruntled former employees whose resignations have been requested.

I trust that through our present program we will have overcome this undesirable tendency to recommend unqualified applicants for appointment. Each interviewer must bear in mind that the applicants he recommends will be the life blood of the Bureau in the future. He must insure that the Bureau will continue to be an aggressive, honest and viable organization. This can be assured through the appointment of only those applicants who possess the highest qualifications for the position.

RECORDED 10-7393

Each interviewer must be positive that the applicant recommended has the proper appearance, personality, education, and native intelligence to function properly on any assignment which may be given.

So that the applicant's ability to express himself properly in written material may be evaluated by you, the Bureau has approved the addition of a question to our present examination wherein the applicant will be asked to state fully on the sheet of paper containing

Mr. Clegg
Mr. Glavin

the question why he is desirous to become a Special Agent of the Bureau. Other questions of a like nature may be utilized by the interviewing official.

This additional question should be mimeographed in the field for use with the examination papers presently in the possession of the field. As additional examination papers are sent to the field, this additional question will be appended thereto at the Seat of Government. With the inclusion of this additional question, the time limit for the regular law examination is increased from 2 to 2½ hours and the accounting examination from 4 to 4½ hours.

In the event you have any question in mind regarding this program, please communicate promptly with the Bureau concerning it.

Very truly yours,

John Edgar Hoover
Director

Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. TOLSON

DATE: June 23, 1951

FROM : W. R. GLAVIN

SUBJECT:

I am attaching hereto a letter addressed to all Special Agents in Charge, as well as communications addressed to approved interviewing officials concerning the Bureau's present Special Agent applicant interview and examination program. It will be noted from the attached communications to all Special Agents in Charge that the Bureau instructs that it be advised when at least ten interviews and examinations are pending in any field office and the Bureau will then communicate with the approved official covering that office so that he may arrange with the Agent in Charge for the scheduling of the interviews and examinations in question. I have set forth the instructions in this manner since the Agent in Charge will better know the distances applicants must travel and will be in a better position to have all applicants who are pending report to the field office on one particular date so that the necessary interviews and examinations may be scheduled. I feel that these interviews and examinations need not be held more than once every two weeks. There may be some exceptions necessary in the event a large number of applicants for the position apply in any one particular office. If they do, we can cover this exception by having additional interviewing officials proceed to that office to handle the interviews and examinations in question.

You will note that in the last paragraph of the second page of the letter to all Special Agents in Charge, it is stated that there may be some interviews and examinations now scheduled which cannot be cancelled and that the Agent in Charge or the Assistant Agent in Charge may handle these interviews. Undoubtedly a number of field offices have already scheduled such interviews and examinations which would necessitate applicants making special plans to be absent from work or to travel long distances to appear at the field office for the examination and interview. I think these interviews should go forward as originally scheduled.

With reference to the utilization of approved interviewing officials, I feel that the following distribution would give us good coverage with a minimum of travel:

J. G. ~~X~~Shanklin, F. C. ~~X~~Stukenbroeker, E. C. ~~X~~Kemper, H. V. ~~X~~Kennedy and
G.A. Inspector ~~X~~Nease, all assigned to the Seat of Government, will handle
the following offices on Saturdays:

Washington ~~Washington~~
Baltimore
Pittsburgh
Philadelphia
Richmond
Norfolk

These Agents will also assist at New York and Newark when
the number of applicants makes such assistance necessary.

No specifically designated interviewer is set up to inter-
view applicants at Anchorage, San Juan and Honolulu. Applicants from
these offices are few and far between and it would not be economical
or advantageous to the Bureau to have any of the qualified interviewers
proceed to the territorial offices for such interviews.

Inspectors H. B. ~~X~~Long, G. C. ~~X~~Gearty, E. C. ~~X~~Brown and T. E.
~~X~~Haughten have been instructed by Mr. Clegg concerning the Bureau's
revised Special Agent applicant interview and examining program and
these four Inspectors can handle the Special Agent applicants who
apply at those offices which are under inspection by them. I have
arranged with Mr. Clegg to be kept advised of the inspection schedules
of all of these men and I will see that there is no overlapping of
travel by other interviewers and examiners when one of the inspectors
is going to be at a particular office within a short period of time.

Dear Mr. Stukenbroeker:

I want to take this opportunity
to express to you my sincere appreciation
for the excellent manner in which you pre-
pared a recent article for a law periodical.

The vast amount of thought and
effort expended by you in the preparation
and presentation of this article is evident
by the very splendid finished product. I
want you to know of my personal commendation
for the very fine service you rendered.

It will be recalled that to date the following individuals have been approved for the purpose of interviewing Special Agent applicants at the Seat of Government and in neighboring offices.

Assistant Director E. J. Connelley
 Special Agent C. L. Trotter
 Special Agent R. C. Gresham
 Special Agent H. V. Kennedy
 Inspector G. A. Nease
 Special Agent A. M. Dinsmore
 Special Agent J. C. Shanklin
 Special Agent E. C. Kemper
 Special Agent F. C. Stukenbroeker

The various offices to be covered by these individuals are listed below with the average number of applicants weekly for each field office listed.

Baltimore	10
Pittsburgh	23
Philadelphia	26
Richmond	8
Norfolk	3
New York	66
Newark	20
Boston	30

It has been found that an interviewer can handle approximately 15 applicant interviews per day on an average. In view of the fact that several of the above named individuals have been and will be on leave during the summer months and must handle their regularly assigned work in addition to the interviewing, it is requested that the following individuals also be approved for the purpose of interviewing applicants at the Seat of Government and the above mentioned offices if necessary.

OR
~~Inspector K. R. McIntire~~
~~Inspector J. S. Rogers~~
 Special Agent E. R. Clayton
 Special Agent W. E. Clark
 Special Agent W. S. Tavel

 AUG 22 1951
 FEDERAL BUREAU OF INVESTIGATION

It should be noted that there have been approximately 25 Special Agent applicants to be interviewed each week at the Seat of Government.

It is also requested in view of the fact that the number of applicants in New York City requires almost the full time attention of one interviewer that Assistant Special Agent in Charge E. E. Hargett be approved for the purpose of interviewing Special Agent applicants in New York City.

With regard to the designation of ASAC Hargett of the New York Office as an interviewing official, I telephonically communicated with him and advised him of the details of the Bureau's present recruitment program and instructed that he handle the SA applicant interviews in the New York Office at this time. I advised him if the number of applicants becomes too heavy we will give the necessary assistance in the form of other authorized interviewing officials.
